you to place the letters atc behind your name
our intent in writing this study guide is to
assist you in accomplishing that final goal of
passing the boc exam it is an accumulation of
dedicated research and past experience we have
included a section on study techniques to
assist you in your preparation for the exam
and a general overview of the exam format to
help you organize your thoughts this guide has
been divided into 7 chapters study techniques
and test taking strategies general information
and the examination format knowledge
assessment clinical decision making skills
assessment critical thinking and what to do if
you do not pass the first time the multiple
choice and true false questions in chapter 3
have been organized according to the boc s
practice analysis 7th ed educational domains
and are also subdivided into related athletic
training subjects to allow you to assess
specific subjects in which you may be weak and
those in which your strengths lie although
this study guide will assist you in preparing
for the certification exam it should not be
used in place of your textbooks or other
sources of study from your academic program it
is not intended to be a practice exam it is
meant only to be used as an adjunct source of
information and to tie everything you have
learned in the classroom and during your
clinical education experiences together in
chapters 1 and 2 we have provided some
specific tools to help you organize yourself
up to 6 months prior to the examination
chapter 3 knowledge assessment consists of
more than 1400 study questions the ~~majority of~~

the multiple choice and true false questions is a mixed bag of subjects derived from the boc s practice analysis educational domains and the balance covers most of the related subject matter of athletic training as previously mentioned chapter 4 clinical decision making tests your ability to make appropriate judgment calls and improve your problem solving skills each problem presents a specific scenario with several possible options that you can choose to follow chapter 5 skills assessment is composed of 26 problems that are designed to test your manual athletic training skills chapter 6 critical thinking is composed of scenario based problems designed to test your ability to develop differential diagnoses chapter 7 what to do if you do not pass the first time is directed at helping you if your test results are not favorable we have included some suggestions on how to deal with the immediate difficulties not passing may cause and how to begin the process of developing a new approach for your next attempt provided you have applied the information you have learned in the classroom and on the field to the study strategies we have offered in this manual you will not need to read this final chapter the 7th edition also features an online component with a variety of questions you can test your knowledge with these exams and receive the results for each when completed also at the end of each sample exam you will be able to review the questions along with the correct answers for a complete and comprehensive review we wish you luck and look forward to

Shakespeare 2015-03-16 if you need to have a
strong understanding of how icd 9 cm diagnosis
and procedure codes are determined then you
have chosen the right book icd 9 cm inpatient
coding reference and study guide the author
designed a book that goes beyond the
fundamentals that gets into the details of icd
9 cm diagnosis and procedure code assignment
as would be experienced on the job this user
friendly reference teaches coders how to
handle many coding situations while also being
comprehensive enough to teach someone with a
basic knowledge of medical coding how to move
to the next level of advanced inpatient coding
updated every year to reflect the annual icd 9
cm coding changes the text enables him
professionals to master the concepts of
medical coding while also gaining critical
knowledge to pass the ccs exam administered by
ahima and the cpc h exam from the aapc the
book also serves as an excellent desk
reference and resource for coders who need to
refresh their icd 9 cm coding skills among the
topics covered in volume 1 are inpatient
coding guidelines coding conventions coding
tables and a drug reference however the heart
of this manual is the body system analysis
based on chapters 1 17 of the tabular list in
volume i of the icd 9 cm official coding

guidelines the chapters are categorized by body system such as respiratory digestive et al the chapters in this study guide follow the same sequence as the official coding guidelines all chapters in addition to highlighting basic coding guidelines contain situation based coding tips and coding examples a quiz follows each chapter reinforcing concepts in a rigorous manner that applies directly to the professional coding environment the book also contains a selective discussion of invasive procedures that the coder will most likely encounter on the job and on the exam at the end of icd 9 cm inpatient coding reference and study guide are 15 case studies providing the reader with an opportunity to assess their icd 9 cm coding skill set and speed at coding inpatient medical records each record contains a face sheet history physical progress notes and answer sheet some of the case studies contain er reports consultations as well as operative and pathology reports the answer key at the end of this study guide contains a rationale for all code assignments 456 short answer questions 116 multiple choice questions 15 full medical record case studies each question is highly relevant and reflects a coding situation most hospital based inpatient coders will face the text strives to ensure the reader understands every diagnosis and procedure discussed thorough discussion of symptoms standard treatment protocols and medications coding examples and quizzes help clarify the information presented linda kobayashi ba rhit ccs has been a coding instructor

coding manager for almost 20 years since 1998
ms kobayashi has owned and operated
codebusters inc a nationwide coding consulting
company widely regarded as a medical coding
and auditing expert she has conducted
workshops on a variety of coding topics
including ccs exam preparation workshops
throughout her career the author has remained
professionally active as an ahima member as
well as a member of her state association chia
california health information association her
formal training includes a teaching credential
from california state university los angeles a
b a degree in english literature from
university of california los angeles an rhit
from ahima after completing the rhit program
at east los angeles college and a ccs
certificate from ahima extensive experience as
a hands on coder auditor and educator and has
given the author the expertise to help coders
prepare for the professional coding
environment
