Ben Bova Presents Father to the Man

1990

the closest planet to the sun mercury is an airless heat scorched world where temperatures rise to four times higher than the boiling point of water but this vision of hell is also a planet with unlimited solar power worth a fortune to the space tycoon saito yamagata if he can find a way to harness it he has hired the enigmatic dante alexios to establish a research station on the surface of the planet and find a way to turn that solar energy into portable power satellites but yamagata is secretly also preparing the way to a very different dream he wants to travel to the stars themselves and alexios has his own obsession a plot to lure an old enemy to this hellhole of a world and take his revenge for one of the worst disasters in human history

Mercury

2005-08-15

bova offers a new collection of wide ranging science fiction stories essays about the onrushing future and observations about the craft of sf itself included among others are such tales as the touching the man who hated gravity the satirical crisis of the month and fitting suits rigorously hard sf like to touch a star and wrenching drama like answer please answer and brothers framing all the stories are bova's insights into the challenges posed in the writing of each one a vade mecum of home truths about the science in sf trusting one's own instincts writing what you know dealing with publishers generating plots creating sympathetic characters and getting the job done also included is a remarkable pair of pieces one a speculative essay about the world of fifty years hence 2042 a cautiously pessimistic view and the other a novella thy kingdom come set in the world outlined in that essay and dramatizing its problems and opportunities finally challenges also presents a generous selection of bova's output as an essayist both in and outside the sf field such pieces as will writing survive science in science fiction what works for me and what i work for john campbell and the modern sf idiom and his resounding affirmation of humanistic rationalism science fiction and faith any collection of ben bova's fiction would be cause for celebration with its generous helping of bova's comments particular provocative and deeply practical on the sf field itself and the real future into which we

are all embarked challenges is an even more special book for sf readers aspiring writers and anyone interested in where the human race is headed at the end of the twentieth century at the publisher s request this title is being sold without digital rights management software drm applied

Challenges

2011-04-01

titan alpha has landed the most complex man made object to reach saturn s largest moon the ten thousand men and women of habitat goddard are once more at the frontier of science from their huge artificial paradise hanging in orbit above saturn some of them dream of landing on titan s surface others will do anything to prevent such a landing and yet others have darker secret plans but almost immediately titan alpha goes silent and minor inexplicable faults start to affect goddard is there a basic design flaw that could threaten the lives of everyone on board or has one of the many malcontents exiled to space decided to sabotage the probe or even the whole expedition the newest chapter in ben bova s epic of space exploration brings to vivid awe inspiring life a barren world of swirling smog frozen methane seas and perhaps even a new sentient life form

Titan
