great powers of europe suddenly shook off almost a century of apathy toward overseas colonies and in the space of 20 years partitioned almost the entire uncolonized portion of the globe this chapter begins by discussing the era of new imperialism that ran from the late nineteenth century into the early twentieth century as a second wave of colonial expansion took place new imperialism was european and japanese imperialism in the period between 1870 and 1914 this period featured aggressive expansion especially into africa but also asia this imperialism involved the acquisition of affordable resources cheap or slave labor territorial control and civilizing initiatives backed by the white man s burden how will these two distinctive postimperial superpowers interact in the 21st century what will be the consequences of the imperial shadows cast in this new emerging bipolar era this so called neoliberal globalisation is the new imperialist stage of capitalist development where imperialism is characterised by the exploitation of southern labour by northern capital the next chapter is on reflections on contemporary capitalism by prabhat patnaik accounts of new imperialist strategy that are partial limited and plete if the theoretical value of new imperialism is to be realized a holistic approach is needed to this end some of the key differences between the contexts of new and old imperialism are explored understand the concepts of new imperialism and colonialism and be able to analyze them in terms of motives their methods and their place in the development of the world economy and the how did the new imperialism affect southeast asia indonesia the philippines and hawaii what impact did the suz canal have on imperialism in that region southeast asia and indonesia received benefits peace and reliable food supply imperialism was only truly new 4 500 years ago shout out to the akkadians but it got a surprising revival when some parts of the world industrialized several factors led to this new imperialism start studying ch 27 the new imperialism learn vocabulary terms and more with flashcards games and other study tools engineering mechanics statics

was a tremendous explosion of territorial conquest in which the imperial powers used economic and technological means to reorganize dependent regions and bring them into the world economy as suppliers of foodstuffs and raw materials and as consumers of industrial products illustration representing Cecil Rhodes' plan of building railways across Africa connecting Cape Town and Cairo aimed at extending the British Empire imperialism is the practice, theory, or attitude of maintaining or extending power over foreign nations particularly through expansionism employing both hard power (military and economic power) and soft power (diplomatic power and cultural). The new imperialism in the late 19th century (1880s) is a new phase of Western expansion and an intense scramble for new territory. European nations began to view Asia and Africa as a source of much-needed raw materials (coal, iron, and copper) and a new market to send their manufactured goods. Early European imperialism was in the form
