multiple choice question is a type of question where the user has to select one or more correct answers from a list of options. It is commonly used in surveys and tests. The question is displayed on the screen and the user can click on the correct answer(s). The system will then automatically grade the question and provide feedback to the user. The question is also stored in a database for future use. The question is displayed on the screen and the user can click on the correct answer(s). The system will then automatically grade the question and provide feedback to the user. The question is also stored in a database for future use.
