Counterinsurgency Warfare Galula in Algeria Counter-insurgency Warfare Galula Counterinsurgency Field Manual Professional Journal of the United States Army Military Review United States Marine Corps - The Basic School - Warrant Officer Basic Course Materials Decolonization and Conflict The Counterrevolution Death, Dominance, and State-Building Waging War The Routledge Handbook of Insurgency and Counterinsurgency Reimagining The National Security State Military Strategy, Joint Operations, and Airpower Parameters Withdrawal Intelligence and Strategic Culture Pathological Counterinsurgency Quarterly Review of Military Literature Awakening Victory Counterinsurgency Theoretical and Practical Principles - COIN Doctrine, David Galula, Acclaimed Sage, Trinquier, Defining Modern Warfare, Charles Lacheroy and Doctrine de Guerre Revolutionnaire (DGR) China's War on Terrorism Infantry Military Strategy New Directions in Strategic Thinking 2.0 Contemporary Military Strategy and the Global War on Terror Adapting to Win The Strategic Use of Force in Counterinsurgency Review of Current Military Literature Special Warfare Pentagon's South Asia Defence and Strategic Year Book 2008 Hitler's Ostkrieg and the Indian Wars Global Security Cultures Understanding Counterinsurgency Warfare Professional Journal of the United States Army Outside In Compulsion in Religion The Failure of Counterinsurgency It Was Sheridan's Fault Not Custer's: LTG Sheridan's Campaign Plans Against The Plain Indians

Counterinsurgency Warfare 1964 this groundbreaking investigation uncovers serious mismatches between david galula s counterinsurgency practice in algeria and his counterinsurgency theory the foundation of current u s counterinsurgency doctrine in iraq and afghanistan given the centrality of david galula s theory to u s counterinsurgency coin doctrine in iraq and afghanistan it is striking that there has been no independent evaluation of galula s recollection of his coin operations in algeria galula in algeria counterinsurgency practice versus theory delivers just such an analysis exploring the colonial french counter insurrectionary theoretical milieu of which galula s coin theory was a part the influence of galula s theory on u s coin doctrine and the current views of galula s theory in france and other nato countries french defense researcher grégor mathias compares each of the eight steps of galula s theory set out in counterinsurgency warfare against his practice of them as described in his writings and now for the first time against the sas archives and those of galula s infantry company and battalion the study shows that galula systematically inflated his operational successes to match his theoretical scheme and that he left problems unresolved causing his work to unravel quickly after he left his command mathias concludes that however heuristically fruitful galula s theory might prove for u s coin doctrine it must be interpreted and implemented under the caveat that it was not successfully field tested by its author

Galula in Algeria 2011-10-05 this comprehensive analytical biography is the definitive work on the life and writings of history s most significant counterinsurgency doctrinaire david galula elucidating the context for his reflections and examining the present and future applicability of his treatise for scholars and practitioners alike the product of years of extensive research made possible by exclusive access to galula s personal papers as well as first hand accounts from colleagues family members and friends this book traces galula s life from early childhood until death describing his upbringing education and military career in the tumultuous historical context of his era the author a former counterinsurgency practitioner himself pays particular attention to how the chinese revolution and the algerian war affected galula s views and identifies galula s mentors and

the schools of thought within the french military that greatly influenced his writings a conclusion illuminates the contemporary and likely future validity of his works in the epilogue the author speaks to galula s influence over modern military thought and u s counterinsurgency doctrine this book is essential reading for individuals with an interest in counterinsurgency galula s writings or galula himself such as military officers and civilian administrators undertaking counterinsurgency courses and training

Counter-insurgency Warfare 1968 when the u s military invaded iraq it lacked a common understanding of the problems inherent in counterinsurgency campaigns it had neither studied them nor developed doctrine and tactics to deal with them it is fair to say that in 2003 most army officers knew more about the u s civil war than they did about counterinsurgency the u s army marine corps counterinsurgency field manual was written to fill that void the result of unprecedented collaboration among top u s military experts scholars and practitioners in the field the manual espouses an approach to combat that emphasizes constant adaptation and learning the importance of decentralized decision making the need to understand local politics and customs and the key role of intelligence in winning the support of the population the manual also emphasizes the paradoxical and often counterintuitive nature of counterinsurgency operations sometimes the more you protect your forces the less secure you are sometimes the more force you use the less effective it is sometimes doing nothing is the best reaction an new introduction by sarah sewall director of the carr center for human rights policy at harvard s kennedy school of government places the manual in critical and historical perspective explaining the significance and potential impact of this revolutionary challenge to conventional u s military doctrine an attempt by our military to redefine itself in the aftermath of 9 11 and the new world of international terrorism the u s army marine corps counterinsurgency field manual will play a vital role in american military campaigns for years to come the university of chicago press will donate a portion of the proceeds from this book to the fisher house foundation a private public partnership that supports the families of america s injured servicemen to learn more about the fisher house foundation visit fisherhouse.org

Galula 2012-08-03 over 2 200 total pages warrant officer basic course wobc 1 18 information congratulations on your selection as a warrant officer of marines you are about to embark upon a truly remarkable journey as an officer of marines that journey begins with your successful completion of the warrant officer basic course wobc at the basic school tbs in quantico virginia warrant officers and title 10 warrant officer wo is an appointed rank vice a commissioned one chief warrant officers marine gunners and recruiting officers are commissioned all chief warrant officers and warrant officers must successfully complete the wobc in order to retain their appointment or commission title 10 u s c section 1165 states the secretary of the navy has the authority to terminate the regular appointment of any permanent regular wo at any time within three years after the date when the officer accepted his original permanent appointment a marine whose appointment is terminated may upon his request and at the discretion of the secretary of the navy be enlisted in a grade not lower than that held immediately prior to appointment therefore the first three years as a wo is a probationary period and the appointment to wo will be terminated if a marine does not complete the requirements of the wobc wobc mission statement train and educate newly appointed warrant officers in the high standards of professional knowledge esprit de corps and leadership required to transition from enlisted marine to officer with particular emphasis on the duties responsibilities and warfighting skills required of a provisional rifle platoon commander the warrant officer basic course the wobc is an eighteen week course that focuses on the transition from enlisted marine to marine officer tbs and the wobc focus on five horizontal themes that define expectations of all marine officers 1 a man woman of exemplary character 2 devoted to leading marines 24 7 3 able to decide communicate and act in the fog of war 4 a warfighter who embraces the corps warrior ethos and 5 mentally strong and physically tough the universal concept that marine officers must be able to assess situations weigh the pros and cons of various decisions make a decision develop a plan communicate that plan effectively and supervise its execution is stressed and exercised throughout the course the course will teach the science and art required

for service of marine officers with an emphasis on decision making throughout provisional infantry and planning subjects are together used as the means or vehicle to teach and evaluate this process since all students are evaluated on leadership as marine officers physical mental and emotional stress are incorporated throughout the course in order to evaluate the ability to lead in chaotic and stressful environments some individuals will be pushed close to their failing point but the wobc is designed to give students an opportunity to display positive leadership qualities in the face of adversity the wobc is not a check in the block it is a course designed to provide students with the learning experiences necessary to effectively transition to service as a marine officer students who do not successfully complete the course face a variety of administrative actions including repetition of the course recycle to a six month lieutenant basic officer course revocation of appointment or separation from the service the wobc curriculum is an academically rigorous provisional infantry and staff planning based program of instruction poi which consists of approximately 935 hours of formal instruction the poi includes classroom instruction field exercises sand table exercises and discussion groups classroom instruction is designed around the flipped classroom model

Counterinsurgency Field Manual 2008-09-15 insurgency based irregular warfare typifies armed conflict in the post cold war age for some years now western and other governments have struggled to contend with ideologically driven guerrilla movements religiously inspired militias and systematic targeting of civilian populations numerous conflicts of this type are rooted in experiences of empire breakdown yet few multi empire studies of decolonisation s violence exist decolonization and conflict brings together expertise on a variety of different cases to offer new perspectives on the colonial conflicts that engulfed europe s empires after 1945 the contributors analyse multiple forms of colonial counter insurgency from the military engagement of anti colonial movements to the forced removal of civilian populations and the application of new doctrines of psychological warfare contributors to the collection also show how insurgencies their propaganda and methods of action were inherently transnational and inter connected the resulting study is a

vital contribution to our understanding of contested decolonization it emphasises the global connections at work and reveals the contemporary resonances of both anti colonial insurgencies and the means devised to counter them it is essential reading for students and scholars of empire decolonization and asymmetric warfare

Professional Journal of the United States Army 2006 a distinguished political theorist sounds the alarm about the counterinsurgency strategies used to govern americans militarized police officers with tanks and drones pervasive government surveillance and profiling social media that distract and track us all of these contends bernard e harcourt are facets of a new and radical governing paradigm in the united states one rooted in the modes of warfare originally developed to suppress anticolonial revolutions and more recently to prosecute the war on terror the counterrevolution is a penetrating and disturbing account of the rise of counterinsurgency first as a military strategy but increasingly as a way of ruling ordinary americans harcourt shows how counterinsurgency s principles bulk intelligence collection ruthless targeting of minorities pacifying propaganda have taken hold domestically despite the absence of any radical uprising this counterrevolution against phantom enemies he argues is the tyranny of our age seeing it clearly is the first step to resisting it effectively

Military Review 2016 the definitive work on the course conduct and aftermath of the iraq war in death dominance and state building the eminent scholar of conflict roger d petersen provides the first comprehensive analytic history of post invasion iraq although the war is almost universally derided as one of the biggest foreign policy blunders of the post cold war era petersen argues that the course and conduct of the conflict is poorly understood he begins by outlining an accessible framework for analyzing complex fluid and violent internal conflicts he then applies that framework to a variety of diverse case studies to break down the strategic interplay among the us military forces and shia and sunni insurgent organizations as it played out in baghdad anbar and hawija highlighting the struggle for dominance between shia and sunni in baghdad petersen offers a reconsideration of the surge he also addresses failures of state building in iraqi

kurdistan critically he shows how the legacy of the us occupation and presence from 2003 2011 shaped iraq s political and security contours from 2011 2023 comprehensive analytically sophisticated and subtle this book draws lessons relevant to future american military interventions from what most regard as the us s most disastrous foreign policy adventure since vietnam the us cannot simply wish away insurgencies which are always going to occur the question is what the us and other great powers might do about them in the future

United States Marine Corps - The Basic School - Warrant Officer Basic Course Materials 2017-06-15 waging war conflict culture and innovation in world history provides a wide ranging examination of war in human history from the beginning of the species until the current rise of the so called islamic state although it covers many societies throughout time the book does not attempt to tell all stories from all places nor does it try to narrate important conflicts instead author wayne e lee describes the emergence of military innovations and systems examining how they were created and then how they moved or affected other societies these innovations are central to most historical narratives including the development of social complexity the rise of the state the role of the steppe horseman the spread of gunpowder the rise of the west the bureaucratization of military institutions the industrial revolution and the rise of firepower strategic bombing and nuclear weapons and the creation of people s war

Decolonization and Conflict 2018-02-27 this new handbook provides a wide ranging overview of the current state of academic analysis and debate on insurgency and counterinsurgency as well as an up to date survey of contemporary insurgent movements and counter insurgencies in recent years and more specifically since the insurgency in iraq from 2003 academic interest in insurgency and counterinsurgency has substantially increased these topics have become dominant themes on the security agenda replacing peacekeeping humanitarian operations and terrorism as key concepts the aim of this volume is to showcase the rich thinking that is available in the area of insurgency and counterinsurgency studies and act as a further guide for study and research in order to contain this wide ranging

topic within an accessible and informative framework the editors have divided the text into three key parts part i theoretical and analytical issues part ii insurgent movements part iii counterinsurgency cases the routledge handbook of insurgency and counterinsurgency will be of great interest to all students of insurgency and small wars terrorism counter terrorism strategic studies security studies and ir in general as well as professional military colleges and policymakers

The Counterrevolution 2024-02-02 a comprehensive look at the toll us government policies took on civil liberties human rights and the rule of law in the name of the war on terror *Death, Dominance, and State-Building* 2016 this second edition of military strategy joint operations and airpower introduces contemporary strategy at the operational level of war developed as foundational reading for all us air force academy cadets this textbook is designed to close the gap between military theory and practice

Waging War 2012-03-15 a better war over the last two decades this term has become synonymous with us strategy during the vietnam war s final years the narrative is enticingly simple appealing to many audiences after the disastrous results of the 1968 tet offensive in which hanoi s forces demonstrated the failures of american strategy popular history tells of a new american military commander who emerged in south vietnam and with inspired leadership and a new approach turned around a long stalemated conflict in fact so successful was general creighton abrams in commanding us forces that according to the better war myth the united states had actually achieved victory by mid 1970 a new general with a new strategy had delivered only to see his victory abandoned by weak kneed politicians in washington dc who turned their backs on the us armed forces and their south vietnamese allies in a bold new interpretation of america s final years in vietnam acclaimed historian gregory a daddis disproves these longstanding myths withdrawal is a groundbreaking reassessment that tells a far different story of the vietnam war daddis convincingly argues that the entire us effort in south vietnam was incapable of reversing the downward trends of a complicated vietnamese conflict that by 1968 had turned into a political military stalemate despite a new articulation of strategy abrams s approach could not materially alter a war no longer vital to

us national security or global dominance once the nixon white house made the political decision to withdraw from southeast asia abrams s military strategy was unable to change either the course or outcome of a decades long vietnamese civil war in a riveting sequel to his celebrated westmoreland s war daddis demonstrates he is one of the nation s leading scholars on the vietnam war withdrawal will be a standard work for years to come

The Routledge Handbook of Insurgency and Counterinsurgency

2019-11-07 reliable information on potential security threats is not just the result of diligent intelligence work but also a product of context and culture the volume explores the nexus between the intelligence process and strategic culture how can and does the strategic outlook of the united states and the united kingdom in particular influence the intelligence gathering assessment and dissemination process this book contains an assessment of how political agendas and ideological outlook have significant influence on both the content and process of intelligence it looks in particular at the premise of hearts and minds policies culture and intelligence gathering in counterinsurgency operations at case studies from imperial malaya and iran in the 1950s and at instances of intelligence failure e g the case of iraq in 2003 how was intelligence or the lack thereof a product of political culture and how did it play a role in the political praxis the book shows that political agendas and the ideological outlook have a significant influence upon both the content and process of intelligence this book was originally published as a special issue of intelligence and national security

Reimagining The National Security State 2022 pathological

counterinsurgency critically examines the relationship between elections and counterinsurgency success in third party campaigns supported by the united states from vietnam to el salvador to iraq and afghanistan many policymakers and academics believed that democratization would drive increased legitimacy and improved performance in governments waging a counterinsurgency campaign elections were expected to help overcome existing deficiencies thus allowing governments supported by the united states to win the hearts and minds of its populace undermining the appeal of insurgency however in each of these cases campaigning in and winning elections did

not increase the legitimacy of the counterinsurgent government or alter conditions of entrenched rent seeking and weak institutions that made states allied to the united states vulnerable to insurgency ultimately elections played a limited role in creating the conditions needed for counterinsurgency success instead decisions of key actors in government and elites to prioritize either short term personal and political advantage or respect for political institutions held a central role in counterinsurgency success or failure in each of the four cases in this study elected governments pursued policies that benefited members of the government and elites at the expense of boarder legitimacy and improved performance expectations that democratization could serve as a key instrument of change led to unwarranted optimism about the likely of success and ultimately to flawed strategy the united states continued to support regimes that continued to lack the legitimacy and government performance needed for victory in counterinsurgency

Military Strategy, Joint Operations, and Airpower 2007 in august 2006 many senior u s officials thought america had lost the war in iraq as the senior u s marine corps intelligence officer there wrote that control of al anbar province the seat of the raging sunni insurgency was irrevocably lost to the insurgents during that time there were over 100 attacks per day against u s military and iraqi forces in al anbar and al qaeda in iraq had planted their flag in the provincial capital ramadi declaring it the capital of their new 0islamic state of iraq 0 in january 2007 as a spearhead of the newly decided 0surge 0 the 3rd battalion 69th armored regiment deployed to ramadi as part of the 3rd infantry division the first regular army unit to deploy to iraq for a third time the battalion and its parent brigade went to work in a campaign that will be seen as the d day of the global war on terror starting by clearing al qaeda from the city of ramadi and replacing them with legitimate locally raised and trained iraqi policeÑwhile simultaneously fostering the tribal movement known as the 0awakening councils0Ñthe brigade began to have tremendous success by april 2007 attacks within ramadi went from twenty per day to one or two per week by mid summer 2007 attacks in the entire province were down 90 percent from 2006 furthermore the 0awakening0 had swept through the rest of iraq leading to the

best security situation seen since 2003 the 3rd battalion 69th armored was the only battalion to participate in this campaign from start to finish moreover many of the us successes came directly from this unit's work awakening victory tells the story of this incredible campaign through the eyes of the commander of the 3rd battalion who was right in the thick of the fight the book also provides a description of the iraqi insurgency—particularly al qaeda in iraq—that offers the depth and texture which are currently lacking in most americans perceptions of the war it describes the battalion's actions including incidents previously unknown to the public but it is not merely another blood and guts war story the author uses the actions of his battalion to describe a paradigm shift that occurred while in a totally foreign culture yet allowed for a move from a war of bombs and bullets to one of partnership and ideas the author lt col michael e silverman ret is a political scientist and historian by education and has extensive experience in both warfare and middle eastern affairs including a tour as an advisor to a saudi arabian infantry battalion in riyadh silverman served a two year detail to the central intelligence agency at their langley headquarters between his last two tours in iraq there he was privy to the director's weekly iraq briefing a working group that discussed issues on the war many of which ultimately found their way into the president's daily briefing well versed in international affairs and world religions he writes with the authority of someone who has both been blown up by an ied and helped to shape us strategic policy for the global war on terror in this book he describes from the very front line the exact turning point where the united states turned a supposedly failed war into a possibly enduring success

Parameters 2017-09-01 this unique book argues that coercive counterinsurgency coin has played a larger role historically than is currently recognized in today's fm 3-24 doctrine which reflects the popular view of coin as emphasizing protection of the population the extent to which the essence of coin has been misunderstood and misinterpreted undermining the coercive gold standard is a central concern while there has been some recognition of the utility of coercive action against insurgents ethical concerns about proportionality and the indiscriminate use of force have imposed constraints

where the gold standard represents deliberate strict coercion against the population fm 3 24 emphasizes a far more limited coercive approach one that may be to the detriment of coin operations as understood in historical perspective chapter i conceptual framework on coin doctrine a introduction b problem c hypothesis d methodology e roadmap chapter ii tarnished coin a review of the gold standard a the gold standard theory and practice 1 david galula the acclaimed sage of coin 2 roger trinquier defining modern warfare 3 charles lacheroy and doctrine de guerre revolutionnaire dgr 4 practice versus theory algeria 5 sir robert thompson and defeating communist insurgency 6 the malaya emergency templar s ham in practice b chapter summary the best practices of the 20th century gold standard chapter iii u s counterinsurgency doctrine a fm 3 24 operational approaches b u s coin principles the crux of fm 3 24 1 employment of force 2 control over the population 3 intelligence and information operations c chapter summary chapter iv comparative analysis a general observations 1 destruction of insurgents 2 static forces and military outposts 3 insurgents must be isolated from the population 4 importance of intelligence 5 the intrinsic and extrinsic political realm 6 information operations io 7 the use of indigenous forces chapter v concluding remarks a implications b current status of fm 3 24 revision c recommendations and areas for potential research 1 forget hearts and minds ham 2 human rights vs civil rights not mutually exclusive in coin 3 the reality of resettlement 4 focus on case studies but be careful d final remarks list of references

Withdrawal 2013-10-31 china s war on terror is among its most prominent and least understood of campaigns with links to the global jihad an indigenous insurgency threatens the government s grip on a massive region of north western china known as xinjiang riots bombings ambushes and assassinations have rocked the region under separatist and islamist banners china

Intelligence and Strategic Culture 2018-06-29 provides an overview of the principles theories policies and other fundamentals of modern warfare and their applications in the twenty first century

Pathological Counterinsurgency 1983 the australasian national university s strategic defence studies centre sdsc is

australia's premier university based strategic studies think tank fifty years after the centre was founded in 1966 sdsc celebrated its continued research publications teaching and government advisory role with a two day conference entitled new directions in strategic thinking 2016 the event saw the podium graced by many of the world's premier thinkers in the strategic studies field an evening between those tours to the lectern brought together academics practitioners and other honoured guests at a commemorative dinner held beneath the widespread wings of the g for george bomber in the Australian War Memorial an event that included sdsc's own professor desmond ball AO making his last public appearance since sdsc's 25th anniversary the world has seen the collapse of the Soviet Union and the end of the cold war bipolarity gave way to the emergence of the United States as the world's sole superpower a status many now see as under threat both the nature of the threats and identity of individual competitors has changed in the interim quarter century non state actors are presenting rising challenges to national governments meanwhile a diminished Russia and far more wealthy China seek to reassert themselves never before has the call for reasoned innovative security studies thinking been more pronounced rarely has a group so able to offer that thought come together as was the case in July 2016 this book encapsulates the essence of this cutting edge thinking and is a must read for those concerned with emerging strategic challenges facing Australia and its security partners

Quarterly Review of Military Literature 2011-10-10

contemporary military strategy and the global war on terror offers an in depth analysis of US UK military strategy in Afghanistan and Iraq from 2001 to the present day it explores the development of contemporary military strategy in the West in the modern age before interrogating its application in the global war on terror the book provides detailed insights into the formulation of military plans by political and military elites in the United States and United Kingdom for Operation Enduring Freedom and Operation Iraqi Freedom Alastair Finlan highlights the challenges posed by each of these unique theatres of operation the nature of the diverse enemies faced by coalition forces and the shortcomings in strategic thinking about these campaigns this fresh perspective on strategy in the West and how it has been applied in recent

military campaigns facilitates a deep understanding of how wars have been and will be fought including key terms concepts and discussion questions for each chapter contemporary military strategy and the global war on terror is a crucial text in strategic studies and required reading for anyone interested in the new realities of transnational terrorism and twenty first century warfare

Awakening Victory 2017-04-08 when insurgent groups challenge powerful states defeat is not always inevitable increasingly guerrilla forces have overcome enormous disadvantages and succeeded in extending the period of violent conflict raising the costs of war and occasionally winning noriyuki katagiri investigates the circumstances and tactics that allow some insurgencies to succeed in wars against foreign governments while others fail adapting to win examines almost 150 instances of violent insurgencies pitted against state powers including in depth case studies of the war in afghanistan and the 2003 iraq war by applying sequencing theory katagiri provides insights into guerrilla operations ranging from somalia to benin and indochina demonstrating how some insurgents learn and change in response to shifting circumstances ultimately his research shows that successful insurgent groups have evolved into mature armed forces and then demonstrates what evolutionary paths are likely to be successful or unsuccessful for those organizations adapting to win will interest scholars of international relations security studies and third world politics and contains implications for government officials military officers and strategic thinkers around the globe as they grapple with how to cope with tenacious and violent insurgent organizations

Counterinsurgency Theoretical and Practical Principles - COIN Doctrine, David Galula, Acclaimed Sage, Trinquier, Defining Modern Warfare, Charles Lacheroy and Doctrine de Guerre

Revolutionnaire (DGR) 2007-11-08 the strategic use of force in counterinsurgency find fix fight focuses on how to understand the relationship between the use of force and the outcomes of such use specifically there is debate as to how to evaluate counterinsurgency conflicts and what prescriptions flow from that evaluation the neo classicist school emphasises prescriptions which are either directly from or inspired by cold war counterinsurgency efforts undertaken by anti communist states the revisionist school

focuses on how best to evaluate the political dimensions of such conflicts this book finds that a third approach reflective action is best as it combines neo classicism s strength of issuing practical prescriptions with revisionism s strength for conceptually evaluating counterinsurgency conflicts this conceptual debate is explicated in three cases they are the british counterinsurgency during the malayan emergency of the 1940s and 1950s american counterinsurgency in south vietnam during the 1960s and 1970s and the coalition counterinsurgency in iraq during the 2000s

China's War on Terrorism 2011 south asia s complex geopolitical realities present a number of challenges to regional countries and dominate the discourse likewise there are complex geostrategic issues which inhibit regional cooperation and add to trust deficit this 2008 volume captures the perspectives of experts and scholars on south asia who offer insights of the region

Infantry 2002 as he prepared to wage his war of annihilation on the eastern front adolf hitler repeatedly drew parallels between the nazi quest for lebensraum or living space in eastern europe and the united states s westward expansion under the banner of manifest destiny the peoples of eastern europe were he said his redskins and for his colonial fantasy of a german east he claimed a historical precedent in the united states s displacement and killing of the native population edward b westermann examines the validity and value of this claim in hitler s ostkrieg and the indian wars the book takes an empirical approach that highlights areas of similarity and continuity but also explores key distinctions and differences between these two national projects the westward march of american empire and the nazi conquest of the east offer clear parallels not least that both cases fused a sense of national purpose with racial stereotypes that aided in the exclusion expropriation and killing of peoples westermann evaluates the philosophies of manifest destiny and lebensraum that justified both conquests the national and administrative policies that framed nazi and u s governmental involvement in these efforts the military strategies that supported each nation s political goals and the role of massacre and atrocity in both processes important differences emerge a goal of annihilation versus one of assimilation and acculturation a planned military campaign

versus a confused strategy of pacification and punishment
large scale atrocity as routine versus massacre as exception
comparative history at its best westermann s assessment of
these two national projects provides crucial insights into
not only their rhetoric and pronouncements but also the
application of policy and ideology on the ground his
sophisticated and nuanced revelations of the similarities and
dissimilarities between these two cases will inform further
study of genocide as well as our understanding of the nazi
conquest of the east and the american conquest of the west
Military Strategy 2018-07-06 why do politicians think that
war is the answer to terror when military intervention in
iraq afghanistan pakistan syria mali somalia and elsewhere
has made things worse why do some conflicts never end and how
is it that practices like beheadings extra judicial killings
the bombing of hospitals and schools and sexual slavery are
becoming increasingly common in this book renowned scholar of
war and human security mary kaldor introduces the concept of
global security cultures in order to explain why we get stuck
in particular pathways to security a global security culture
she explains involves different combinations of ideas
narratives rules people tools practices and infrastructure
embedded in a specific form of political authority a set of
power relations that come together to address or engage in
large scale violence in contrast to the cold war period when
there was one dominant culture based on military forces and
nation states nowadays there are competing global security
cultures defining four main types geo politics new wars the
liberal peace and the war on terror she investigates how we
might identify contradictions dilemmas and experiments in
contemporary security cultures that might ultimately open up
new pathways to rescue and safeguard civility in the future
New Directions in Strategic Thinking 2.0 2014-06-19 this
textbook offers an accessible introduction to
counterinsurgency operations a key aspect of modern warfare
featuring essays by some of the world s leading experts on
unconventional conflict both scholars and practitioners the
book discusses how modern regular armed forces react and
should react to irregular warfare the volume is divided into
three main sections doctrinal origins analysing the
intellectual and historical roots of modern western theory
and practice operational aspects examining the specific role

of various military services in counterinsurgency but also special forces intelligence and local security forces challenges looking at wider issues such as governance culture ethics civil military cooperation information operations and time understanding counterinsurgency is the first comprehensive textbook on counterinsurgency and will be essential reading for all students of small wars counterinsurgency and counterterrorism strategic studies and security studies both in graduate and undergraduate courses as well as in professional military schools

Contemporary Military Strategy and the Global War on Terror

2015 these original essays exemplify how the transnational history of the united states is being written today the authors offer fresh work that focuses on the circuits of border crossing activity that americans have inhabited while still taking the nation state seriously

Adapting to Win 2020-01-13 samuel helfont draws on extensive research with ba thist archives to investigate the roots of the religious insurgencies that erupted in iraq following the american led invasion in 2003 in looking at saddam hussein s policies in the 1990s many have interpreted his support for state sponsored religion as evidence of a dramatic shift away from arab nationalism toward political islam while islam did play a greater role in the regime s symbols and saddam s statements in the 1990s than it had in earlier decades the regime s internal documents challenge this theory the faith campaign saddam launched during this period was the culmination of a plan to use religion for political ends begun upon his assumption of the iraqi presidency in 1979 at this time saddam began constructing the institutional capacity to control and monitor iraqi religious institutions the resulting authoritarian structures allowed him to employ islamic symbols and rhetoric in public policy but in a controlled manner saddam ultimately promoted a ba thist interpretation of religion that subordinated it to arab nationalism rather than depicting it as an independent or primary political identity the point of this examination of iraqi history other than to correct the current understanding of saddam hussein s political use of religion throughout his presidency is to examine how saddam s controlled use of religion was dismantled during the us iraq war and consequently set free extremists that were suppressed under

his regime when the american led invasion destroyed the regime s authoritarian structures it unwittingly unhinged the forces that these structures were designed to contain creating an atmosphere infused with religion but lacking the checks provided by the former regime groups such as the sadrists al qaida and eventually the islamic state emerged out of this context to unleash the insurgencies that have plagued post 2003 iraq

The Strategic Use of Force in Counterinsurgency 2007 this book examines the implications of counterinsurgency warfare for u s defense policy and makes the compelling argument that the united states default position on counterinsurgency wars should be to avoid them given the unsatisfactory outcomes of the counterinsurgency coin wars in afghanistan and iraq the u s military is now in a heated debate over whether wars involving coin operations are worth fighting this book provides a comprehensive analysis of the effectiveness of coin through key historic episodes and concludes that the answer is an emphatic no based on a dominant record of u s military or political failure and inconsistency in the reasons for the rare cases of success the author also examines the implications of his findings for u s foreign policy defense policy and future weapons procurement

Review of Current Military Literature 2013 martin van creveld a noted theorist contends that the concept of operational art did not take off in the u s until after the vietnam war conversely james schneider a prominent military theorist asserts that operational art began in the american civil war this monograph provides a holistic analysis of four plains indian war campaigns lieutenant general ltg philip sheridan conducted all four campaigns this analysis illustrates several enduring principles of both operational art and counterinsurgency coin operations the purpose of the monograph is to explain the initial failure of ltg sheridan s 1876 centennial campaign against the sioux and cheyenne indians additionally this explanation relates the significance of ltg sheridan s planning to contemporary coin campaign planning the overall methodology is the incorporation of four case studies to test the theory of sanctuary control and elimination of resources to defeat insurgencies the monograph contains three key findings the first key finding is that the failure at the little big horn

was ltg sheridan s fault not ltc custer s and this directly relates to the second finding the second key finding is the importance of operational art in designing a campaign plan to link tactical actions to strategic objectives the third finding is the efficacy of some of the current coin tenets ultimately this monograph demonstrates the utility of a strategy of exhaustion and its resulting operations to control terrain and insurgent sanctuaries as well as to deny the enemy resources to defeat an insurgency
