Praying for Sheetrock: A Work of Nonfiction

1991

a narrative of the events of 1978 in mcintosh county georgia when the first black man was elected as a county commissioner

Praying for Sheetrock

2015-09-15

finalist for the 1991 national book award and a new york times notable book praying for sheetrock is the story of mcintosh county a small isolated and lovely place on the flowery coast of georgia and a county where in the 1970s the white sheriff still wielded all the power controlling everything and everybody somehow the sweeping changes of the civil rights movement managed to bypass mcintosh entirely it took one uneducated unemployed black man thurnell alston to challenge the sheriff and his courthouse gang and to change the way of life in this community forever an inspiring and absorbing account of the struggle for human dignity and racial equality coretta scott king

Work Improvement for Maintenance

of Public Works and Public Utilities

1960

in a world of extreme makeovers this book is a thoughtful adventure filled witty look at what the space we live in says about us the pleasures of home renovation projects great and small and how home renovation can change our lives few things define us as powerfully as the place where we live the size and location of a house may reveal basic facts about our financial or social status but it is the personal touches a paint color or a homemade desk that reflect our aspirations our tastes our secret desires in sheetrock shellac david owen recounts his renovation and home construction projects in small town connecticut from catching the home improvement bug while watching workmen replacing a leaky roof to his first tentative foray into diy successfully building an enclosure for a bathroom radiator that had turned into a sort of low tech factory for converting splattered urine into odor and dust as his skill grows so does his confidence replacing a broken light switch turns into wiring an entire room making bookcases is followed by building an office some of the more overly imaginative projects for instance an ambition to install sinks and hot and cold faucets in all the rooms of the house never come to fruition but are amusingly recounted for other intrepid home designers owen s two hundred year old farmhouse provides numerous occasions for home improvement projects and layers literally of fascination owen quickly learns the hard way when to tackle a project himself and when to turn for help but soon he s so comfortable with the undertaking that he decides to take the

~~big leap from renovation to building a completely new home~~
from the ground up in this case owen decides to build a weekend cabin a mere six miles away from his home from a discourse on kitchen countertop materials to the complete history of concrete to a near disastrous mishap with a tree a newly constructed roof and an overzealous chainsaw owen s journey through home designing and building proves both enthrallingly educating and hilariously detailed new yorker writer owen s engaging narrative filled with a wealth of practical information hands on tips and canny insights explores the ways in which the human processes of construction and renovation leave all the parties transformed more than a simple how to sheetrock shellac is a why to a wellspring of savvy advice and encouragement for anyone who has ever contemplated changing their surroundings and changing their life
