responses to CSI from critics, journalists, and industry professionals focus on a range of issues from the pornographic quality of the CGI effects to the relationship of characters to their narratives and the reaction of the fans to the semiotics of Horatio Caine's sunglasses. This in-depth compulsive read also includes a full episode guide. The power of the modern prosecutor arises from several features of the criminal justice landscape: widespread use of law and order political rhetoric and heightened fear of crime among voters; legislatures embrace of extreme sentencing ranges to respond to such concerns and the uncertain or limited accountability of prosecutors to the electorate; the bar or other political and professional constituencies; the convergence of these trends has transformed prosecution into an indispensable field of study. This volume brings together the work of leading international scholars across criminology, sociology, political science, and law, along with contributions from reform-minded practitioners to examine a variety of issues in prosecutorial behaviour and the institutional structures that frame their behavior. The handbook connects the dots among existing theoretical and empirical research related to prosecutors. Major sections of the volume cover: 1. Prosecutor performance during distinct phases of a criminal case; 2. The features of the prosecutor's environment, both inside the office and external to the office that influence the choices of individual prosecutors and office leaders; and 3. Prosecutorial strategies and priorities when dealing with specialized types of crimes, victims, and defendants. Taken together, the chapters in this volume identify the founding texts, discuss leading theoretical and methodological approaches, explain the scope of unresolved issues, and preview where this field is headed. The volume provides a bottom-up view of an important new scholarly field. In all his years, and Brian Tessler being an ancient immortal vampire, he'd seen many. Brian couldn't believe one of his best friends, Banny, the King of all vampires, could do something like this to his parents. His parents had been imprisoned on Banny's orders due to a great debt they apparently owed, and Brian had no money to cover a debt of that magnitude. Another thing Brian couldn't understand was how they had amassed such a debt in the first place. He paid the property taxes himself every year, and his parents had no loans or credit cards, and the fairies covered the utilities. Brian was at a loss.
