queen victoria but there has never been one that has explored her other world the world of the strange and unusual the world of death and her fascination for it and the world of the unseen and the paranormal that she could never resist during his research peter underwood gained the distinct impression that there was something of a conspiracy of silence around her interest in the paranormal however there is overwhelming evidence that as a fatherless and bewildered princess as a quickly matured queen and then as a widowed and often lonely woman victoria showed a considerable interest in death and its draperies this book covers victoria s youthful encounters with the occult her visits to haunted properties her friends and acquaintances with similar interests and experiences her alleged involvement with robert lees the medium her undoubted interest in the jack the ripper murders her obsession with omens and superstitions and her fascination with death not long before his death the prince consort told the queen we don t know in what state we shall meet again but that we shall recognise each other and be together in eternity i am perfectly certain through forty years of widowhood queen victoria believed utterly that this would be so any other world will do presents an alien vision of earth s possible future it s a send up of the genre that wraps its earnest warning to any sincere and hearty believer in historical christianity the advance of materialism and the consequent denial of the supernatural must be the cause both of alarm and sadness the few lead the many follow and it is frequently the case that conclusions contrariant to the idea of the supernatural are arrived at after a course of reasoning which conclusions appear to many wholly unjustified either by the premisses adopted or from the argument that has ensued it has been stated in a serial of some ability that the final issue of the present conflict between so that things are necessarily different to what they would have been if he had not thus acted and no disturbance nor dislocation of the system around him ensues as a consequence of such action surely he who contrived the system in question can subsequently interpose both in the natural and spiritual order of the world for to deny this possibility is obviously to place god on a lower level than man in other words to make the creator of all things weaker and less free than his own creatures

there have been many books about queen victoria but there has never been one that has explored her other world the world of the strange and unusual the

world of death and her fascination for it and the world of the unseen and the paranormal that she could never resist during his research peter underwood gained the distinct impression that there was something of a conspiracy of silence around her interest in the paranormal however there is overwhelming evidence that as a fatherless and bewildered princess as a quickly matured queen and then as a widowed and often lonely woman victoria showed a considerable interest in death and its draperies this book covers victoria s youthful encounters with the occult her visits to haunted properties her friends and acquaintances with similar interests and experiences her alleged involvement with robert lees the medium her undoubted interest in the jack the ripper murders her obsession with omens and superstitions and her fascination with death not long before his death the prince consort told the queen we don t know in what state we shall meet again but that we shall recognise each other and be together in eternity i am perfectly certain through forty years of widowhood queen victoria believed utterly that this would be so
