maths problem solving year 6 is the sixth book in the maths  
problem solving series the books have been written for  
teachers to use during the numeracy lesson they cover the  
solving problem objectives from the numeracy framework  
this book contains three chapters making decisions  
reasoning about numbers or shapes and problems involving  
real life money or measures the books are designed in such

a way that each section has six stages of questions to be worked through every stage is split into three levels for example 1a 1b or 1c based on achievement each corresponding question from these levels follow the same line of questioning so that when the teacher talks about a certain question the solution process is the same for each level but the complexity of the sum varies
