this volume is part of the ongoing collaboration between the rmc series and the socio economic institute for firms and organizations iseor a french intervention research think tank co directed by henri savall and véronique zardet building on an earlier collaboration on the iseor approach socio economic intervention in organizations the intervener researcher and the seam approach to organizational analysis iap 2007 buono and savall bring together over 30 talented intervener researchers to explore and examine the ongoing evolution of the socio economic approach to management seam this volume revisits the application of seam in the context of intervention challenges in the wake of the recent economic crisis and the disruptive change that has taken hold across the world the basic foundation of seam built on the idea of strategic patience the need to undertake holistic intervention in organizations and the challenge to get organizational members to listen to themselves through what they refer to as the mirror effect has remained the same in response to economic and organizational pressures in the current environment however

there has been a concomitant emphasis on helping client organizations achieve short term results while still maintaining focus on the long term many ideas that have become part of the current discourse within iseor today were not as explicitly addressed in the initial volume from the destructive effect of the taylorism fayolism weberism tfw virus to the need to focus on ways to ensure the sustainability of a seam intervention the growing importance of collaborative interactions between external and internal consultants and the growing importance of cocreating knowledge with client firms and organizations
