destiny's journey is a memoir reconstructed partly from notebooks that döblin kept from the time he worked in the french ministry of information in the spring of 1940 and partly written without notes in los angeles where he took refuge during the second world war it tells the personal and generational story of the flight of jewish and anti nazi intellectuals from europe to america their fear and frustration isolation and inability to work döblin's story differs from that of other jewish intellectuals and artists in that his family converts to catholicism in los angeles unlike most of them he returns to europe as an officer with the french forces and works on denazifying german literature the conversion narrative bridges the departure from and return to europe to critic john simon the latter part of the book often reads like a shrill piece of christian homiletics but even this is not without interest as it traces the transformation of an anarchic outsider into a dogmatic insider the first part of destiny's journey about döblin's departure from paris in 1940 is magisterial acidly observed saturated in telling detail grimly comic and harrowing with an exemplary introduction by peter demetz an important nourishing book john simon the new york times
