## **Air Force Civil Engineer 1963**

when mohamed noorani writes he uses the nom de plume of sandy parr sandy parr writes mostly on golf he loves golf but he is not the typical ardent or fanatic golfer who habitually watches the world golf ranking instead sandy spends his time writhing and agonising just to understand why the incorrigible weekend golfers including him find it so hard to shave off their handicap he never pretends that he has the answer or is even near to it nonetheless he knows from observation that the touring pros are way ahead of the weekend golf nuts simply because of their prowess in reaching the greens in regulation their superiority in the delicate chipping and pitching shots and their confidence in putting in other words the pros are superior in everything this book is a compilation of what sandy parr had noted about golf as seen from the eyes of a weekend golfer sandy would advise that the easiest shots to shave off your score are found in the short game chipping pitching and putting dont require tremendous swing speed or physical ability plus they can be practiced in your backyard or living room having a reliable tee shot that land in the fairway is important as well finding the short grass off the tee is much more important than distance especially for high handicappers
