that a soldier of the great war in sunlight and in shadow and winter s tale substantially correspond to respectively dante s inferno purgatorio and paradiso the author himself has acknowledged his debt to dante and references to the comedy appear throughout his works it is not that helprin s novels track their dantean antecedents slavishly or even follow the structure of the canticles explicitly rather the central arguments of dante s three works are taken up by helprin in his novels in adopting dante s essentially platonic doctrine of mediation helprin s characters are fully instantiated human beings who also mediate and reveal the divine in his engagement with dante helprin affirms the core philosophical theological and psychological arguments of the comedy and then modifies those arguments in a distinctly modern way specifically helprin focuses on human freedom as the necessary precondition for justice to exist both for individuals and for societies in the final chapter of the book the authors turn to helprin s freddy and fredericka in this novel helprin both assumes dante s argument

and then radically alters it by pointing to the possibility of a just regime on earth rather than one that exists merely in heaven while accepting much of dante s metaphysical argument helprin shows the virtues of liberal democracy as that form of political regime that is most able to unite human eros with eternal principles in the end helprin's novels are remarkable for the way in which they advocate for ancient virtues while insisting upon the distinctly modern liberal account of human freedom as the necessary foundation for human flourishing as one of the supreme christian epic poems dante s divine comedy provides not only far more personality and emotional depth than the pagan epics it also opens up all the issues on which western history turns truth beauty goodness sin sanctification and triumph for all that c s lewis loved the comedy for its seemingly effortless poetry in this guide peter leithart uses a biblical angle to open up the comedy for students high school and up he begins his discussion by examining the meaning and place of the courtly love tradition and then introduces us to the

an extensive introduction dealing with relevant medieval and early renaissance sources is followed by a series of case studies that illustrate ways in which renaissance artists revived conventional animal imagery in unprecedented contexts investing them with new meanings on a social political ethical religious or psychological level often by applying exegetical methodology in creating multiple semantic and iconographic levels brill s studies on art art history and intellectual history vol 2 presents stimulating chapters on virgil and his reception offering an authoritative overview of the current state of virgilian studies dualism is a motif that runs through literature of all genres and historical contexts inspiring argumentation at the highest level and showing the formation of ideas in association as a creative exchange it arises with special pertinence in western literature since the renaissance and reformation in dualisms noted scholar ricardo j quinones considers four major intellectual encounters erasmus and luther voltaire and rousseau turgenev and dostoevsky and sartre and camus

these four instances guinones argues are important for what they are and what they represent major intellectual contests that created the modern era and remain the agons of our time through in depth analysis this study looks at the clarifications that emerged from four famous polemics discerning an itinerary of their encounters guinones suggests a shared paradigm of development that is true for each of the examples of dualism in all four cases the two participants represented the vanguard of their time and all of the debates started from shared intellectual positions until subsequent events revealed substantially different temperaments it is the inescapable tension and connection between prior affinities and the discord of debate that continue to intrigue us dualisms is a tour de force encompassing intellectual history philosophy theology and literary criticism it provides fresh perspectives on some of the most famous intellectual debates in all of literature and considers the implications that they continue to have for the study of the humanities in the modern world vertical readings in dante s

comedy is a reappraisal of the poem by an international team of thirty four scholars each vertical reading analyses three same numbered cantos from the three canticles inferno i purgatorio i and paradiso i inferno ii purgatorio ii and paradiso ii etc although scholars have suggested before that there are correspondences between same numbered cantos that beg to be explored this is the first time that the approach has been pursued in a systematic fashion across the poem this collection to be issued in three volumes offers an unprecedented repertoire of vertical readings for the whole poem as the first volume exemplifies vertical reading not only articulates unexamined connections between the three canticles but also unlocks engaging new ways to enter into core concerns of the poem the three volumes thereby provide an indispensable resource for scholars students and enthusiasts of dante the volume has its origin in a series of thirty three public lectures held in trinity college the university of cambridge 2012 2016 which can be accessed at the cambridge vertical readings

under fire once again in recent decades would the god of love revealed by jesus really consign the vast majority of humankind to a destiny of eternal conscious torment is divine mercy bound by the demands of justice how can anyone presume to know who is saved from the flames and who is not reacting to presumptions in like manner others write off the fiery images of final judgment altogether if there is a god who loves us then surely all are welcome into the heavenly kingdom regardless of their beliefs or behaviors in this life yet given the sheer volume of threat rhetoric in the scriptures and the wickedness manifest in human history the pop universalism of our day sounds more like denial than hope mercy triumphs over judgment it does not skirt it her gates will never be shut endeavors to reconsider what the bible and the church have actually said about hell and hope noting a breadth of real possibilities that undermines every presumption the polyphony of perspectives on hell and hope offered by the prophets apostles and jesus humble our obsessive need to harmonize

every text into a neat theological system but they open the door to the eternal hope found in revelation 21 22 the city whose gates will never be shut where the spirit and bride perpetually invite the thirsty who are outside the city to come drink of the waters of life Las Vegas Sidewinders: Vladimir 2018-02-22 this book studies several of mark helprin s novels in terms of their relation to dante s divine comedy the authors demonstrate that a soldier of the great war in sunlight and in shadow and winter s tale substantially correspond to respectively dante s inferno purgatorio and paradiso the author himself has acknowledged his debt to dante and references to the comedy appear throughout his works it is not that helprin s novels track their dantean antecedents slavishly or even follow the structure of the canticles explicitly rather the central arguments of dante s three works are taken up by helprin in his novels in adopting dante s essentially platonic doctrine of mediation helprin s characters are fully instantiated human beings who also mediate and reveal the divine in his engagement

with dante helprin affirms the core philosophical theological and psychological arguments of the comedy and then modifies those arguments in a distinctly modern way specifically helprin focuses on human freedom as the necessary precondition for justice to exist both for individuals and for societies in the final chapter of the book the authors turn to helprin s freddy and fredericka in this novel helprin both assumes dante s argument and then radically alters it by pointing to the possibility of a just regime on earth rather than one that exists merely in heaven while accepting much of dante s metaphysical argument helprin shows the virtues of liberal democracy as that form of political regime that is most able to unite human eros with eternal principles in the end helprin's novels are remarkable for the way in which they advocate for ancient virtues while insisting upon the distinctly modern liberal account of human freedom as the necessary foundation for human flourishing The Video Games Guide 2013-01-17 as one of the supreme christian epic poems dante s

divine comedy provides not only far more personality and emotional depth than the pagan epics it also opens up all the issues on which western history turns truth beauty goodness sin sanctification and triumph for all that c s lewis loved the comedy for its seemingly effortless poetry in this guide peter leithart uses a biblical angle to open up the comedy for students high school and up he begins his discussion by examining the meaning and place of the courtly love tradition and then introduces us to the varied levels of meaning throughout the work in the heart of the guide leithart walks us carefully through the craft and symbolism of each progressive stage inferno purgatorio and paradiso each section contains helpful study questions

Relentless (Vampire Awakenings, Book 11) 2020-06-24 ilmari karimies investigates martin luther s understanding of reality and faith he examines luther s understanding of reality from three perspectives firstly god as the self giving highest good uniting opposites and hiding beneath them secondly the visible and invisible world and thirdly human beings as tripartite body soul spirit and bipartite flesh spirit the author explores the cognitive conflict between these in relation to spirit s grasping of god and the invisible world with reference to augustinian platonism he analyses aspects of faith from the perspective of the theory of divine illumination and shows that luther represents a realistic augustinian view faith functions as the theological intellect grasping the invisible world and showing human beings the future good in a manner similar to the medieval notion of ecstatic knowledge it differs from vision in glory because of sin as mixed with humanity and as partial knowledge

Comparative Journeys 2009 some of the greatest works of western literature have been inspired or influenced by powerful christian themes in this fresh evaluation of this relationship and its development over the last two millennia ambrose mong studies a series of authors representative of the changing epochs augustine dante and milton all wrote to serve the needs of the christian community and combine their religious themes with scholarly excellence meanwhile shakespeare s plays and coleridge s the rime of the ancient mariner though not specific to the christian faith nevertheless betray the dominant christian values and imagery of their time finally in dostoevsky s the brothers karamazov and greene s the power and the glory christianity is put under scrutiny reflecting the increasing insecurity of its place in society throughout mong also shows that the themes in these works are to a certain extent universal

creation sin suffering and forgiveness are perennial human concerns beyond the exclusive purview of christianity and these texts serve to challenge christian assumptions as much as they are influenced by them always thorough and sensitive to the unique context of each writer mong s analysis provides an important grounding in the way western literature has shaped and been shaped by the religion of its day

A Beginner's Guide to Dante's Divine Comedy 2018-03-20 dualism is a motif that runs through literature of all genres and historical contexts inspiring argumentation at the highest level and showing the formation of ideas in association as a creative exchange it arises with special pertinence in western literature since the renaissance and reformation in dualisms noted

scholar ricardo j guinones considers four major intellectual encounters erasmus and luther voltaire and rousseau turgenev and dostoevsky and sartre and camus these four instances quinones argues are important for what they are and what they represent major intellectual contests that created the modern era and remain the agons of our time through in depth analysis this study looks at the clarifications that emerged from four famous polemics discerning an itinerary of their encounters guinones suggests a shared paradigm of development that is true for each of the examples of dualism in all four cases the two participants represented the vanguard of their time and all of the debates started from shared intellectual positions until subsequent events revealed substantially different temperaments it is the inescapable tension and connection between prior affinities and the discord of debate that continue to intrigue us dualisms is a tour de force encompassing intellectual history philosophy theology and literary criticism it provides fresh perspectives on some of the most
