in what is a world pheng cheah a leading theorist of cosmopolitanism offers the first critical consideration of world literature s cosmopolitan vocation addressing the failure of recent theories of world literature to inquire about the meaning of world cheah articulates a normative theory of literature s world making power by creatively synthesizing four philosophical accounts of the world as a temporal process idealism marxist materialism phenomenology and deconstruction literature opens worlds he provocatively suggests because it is a force of receptivity

cheah compellingly argues for postcolonial literature s exemplarity as world literature through readings of narrative fiction by michelle cliff amitav ghosh nuruddin farah ninotchka rosca and timothy mo that show how these texts open up new possibilities for remaking the world by negotiating with the inhuman force that gives time and deploying alternative temporalities to resist capitalist globalization
