The Triune God of Christian Faith 1990 a michael glazier book includes bibliographical references p 119 123 and index

Our Triune God 2002 who is the god of the bible from both within the church and outside her walls the orthodox doctrine of the holy trinity declared in scripture and passed down in ecumenical creeds and local confessions of faith is under attack the emerging absence of a trinitarian mind set so prevalent in the church today has enormous implications for the future of the christian faith concerned to counter contemporary attacks on the doctrine of god peter toon here demonstrates the existence and priority of a trinitarian pattern in scripture and defends the essential role of the trinity in christian belief faith and practice

The Triune God 2002-09-01 the theology of the trinity is undergoing an intense renewal filled with a vitality and vibrancy not seen since the fourth century what had become for most believers dormant and peripheral to the understanding of the christian faith is once again at the center of lively theological discussions the triune god offers a comprehensive overview of the theology of the trinity from its origin in the bible through the significant periods of development in the early church and up to the present time author thomas marsh reviews key biblical understandings of god explains early church developments highlights controversies about the trinity considered at church councils and chronicles the scholastic distinctions of the middle ages he also explores contemporary efforts to revitalize the theology of the trinity and considers the question of inclusive god language the ÖrebirthÓ of the spirit and the role of the trinity in the theology of the kingdom and in the place of the church in society the triune god is a serious exploration of the trinity well suited to college seminary and university courses anyone interested in an in depth examination of the trinity from a scriptural historical and pastoral perspective will find this book essential reading

The Triune God 1999-02-23 Óa primary condition for fresh thinking on the trinity is an accurate objective account of past and present thoughtÓ wrote one reviewer when the triune god first appeared in 1972 Óthis is what fortman has presented sensitively accurately and compactly Ó the author sets out Óto trace the historical development of trinitarian doctrine from its written beginnings to its contemporary status Ó thus he treats the biblical witness the council of nicea augustine the middle ages and the development of this doctrine from the fifteenth century to the present in the protestant orthodox and catholic traditions

The Mystery of the Triune God 1989 the theology of the trinity and the tradition of the catholic church

The Triune God 2016-12-06 a constructive study of trinitarian theology

that aims to clarify our knowledge of the triune god by rightly ordering the theological language we use to praise him the triune god reaches its conclusions about how this doctrine should be handled on the basis of the way the trinity was revealed as such theologian fred sanders invites a doxological invitation to the reader to contemplate the mystery of the trinity establishes the biblical exposition and draws the doctrinal implications from it offers dogmatic principles for trinitarian exegesis though sanders does interact with major voices from the history of doctrine and his arguments are indebted to and informed by the great tradition of trinitarianism he is clear throughout that trinitarianism is a gift of revelation before it is an achievement of the church the most patristic way to proceed toward a well ordered doctrine of the trinity is after all to study scripture about the series new studies in dogmatics seeks to retrieve the riches of christian doctrine for the sake of contemporary theological renewal following in the tradition of g c berkouwer s studies in dogmatics this series provides thoughtful concise and readable treatments of major theological topics expressing the biblical creedal and confessional shape of christian doctrine for a contemporary evangelical audience the editors and contributors share a common conviction that the way forward in constructive systematic theology lies in building upon the foundations laid in the church s historic understanding of the word of god as professed in its creeds councils and confessions and by its most trusted teachers

The God of Jesus Christ 2018-08-22 in this book of meditations based on a series of meditations by the author shortly before he became archbishop of munich freising in 1977 theologian joseph ratzinger pope benedict xvi presents his profound thoughts on the nature and person of god building a bridge between theology and spirituality as he makes wide use of the sacred scriptures to reveal the beauty and mystery of who god is he writes about each of the three persons in the holy trinity showing the different attributes of each person and that god is three and god is one god is and the christian faith adds god is as father son and holy spirit three and one this is the very heart of christianity but it is so often shrouded in a silence born of perplexity has the church perhaps gone one step too far here ought we not rather leave something so great and inaccessible as god in his inaccessibility can something like the trinity have any real meaning for us it is certainly true that the proposition that god is three and god is one is and remains the expression of his otherness which is infinitely greater than us and transcends all our thinking and our existence but as joseph ratzinger shows if this proposition meant nothing to us it would not have been revealed and it could be clothed in human language only because it had

already penetrated human thinking and living to some extent without
jesus we do not know what father truly is this becomes visible in his
prayer which is the foundation of his being a jesus who was not
continuously absorbed in the father and was not in continuous intimate
communication with him would be a completely different being from the
jesus of the bible the real jesus of history in jesus prayer the father
becomes visible and jesus makes himself known as the son the unity
which this reveals is the trinity accordingly becoming a christian means
sharing in jesus prayer entering into the model provided by his life i e
the model of prayer becoming a christian means saying father with jesus
joseph ratzinger pope benedict xvi

The Triune God 1986-01-01 while the workings of the trinity challenge
our understanding bible believing christians cannot let themselves
downplay the trinity or ignore it we find the father son and holy spirit
each present throughout the pages of scripture and each equally
deserving of our love and reverence this book while not attempting to
define or explain the trinity dedicates equal space to examining the
qualities and roles of each member as we find them in the bible to help
us grow in our knowledge and understanding to do so the alliance of
confessing evangelicals has gathered essays from leading pastors and
preachers on these addresses will make us more familiar with each
person of the trinity and will show us how to rightly respond to each one
the more we know how to relate to the trinity the more we can enrich
our love for our triune god book jacket

The Triune God 2014 the triune god together with the forthcoming
second volume the works of god develops a compendious statement of
christian theology in the tradition of a medieval summa or of such
modern works as those of schleiermacher and barth theology as it is
understood here is the christian church s continuing discourse
concerning her specific communal purpose it is the hermeneutic and
critical reflection internal to the church s task of speaking the gospel to
the world as message and to god in petition and praise this volume and
its successor are thus dedicated to the service of the one church of the
creeds it is for no particular denomination or confession the
interlocutors of this work s analyses and proposals are drawn from
wherever in the ecumenical tradition a question may lead to theologians
and traditions ancient medieval or modern eastern or western catholic
or protestant

Systematic Theology : Volume 1: The Triune God 1997-06-24 in this
original contemporary doctrine of the trinity william placher places the
history of theology in dialogue with postmodern philosophy and yields a
provocative postliberal interpretation placher deftly connects a radical

view of god's transcendence with a narrative christology his resulting thesis is twofold first the doctrine of the trinity is not a way of explaining the inner nature of god but a way of preserving god's mystery and second the trinity should be presented by showing how father son and holy spirit are one god moving from the three to the one not the other way around an exceptionally clear and engaging presentation of this central christian doctrine the triune god both advances the scholarly and ecclesial discussion on the trinity and provides an unusually concrete introduction to postliberal theology

The Triune God 2007-01-01 this volume begins with an extended discussion of jenson's methodology and addresses questions on the nature of the christian god including the classic christological and trinitarian questions

Systematic Theology 2001 the complex nature of christian communion with a personal god requires a nuanced expression since its inception the early church affirmed god's unknowable nature and also participation in god through christ the church fathers employed the language of theosis in talking about union with god and human transformation in the likeness of god however the term theosis or deification is a broad category and requires precise explanation to avoid human dissolution in the divine in the mystical union this book addresses the conundrum of imparticipable divine nature and personal union between human and the trinity if god is trinity then we are created and restored in the image of tripersonal god

Triadosis 2021-09-30 this new book takes forward professor moltmann's thought on the trinity during the 1980s following the publication of his classic study the trinity and the kingdom of god it begins with a survey of the doctrine of the trinity today which sees the main issues as being the social doctrine of the trinity gender and the trinity and the trinity and the cross and ends with a fascinating retrospect my theological career

History and the Triune God 1991 recent years have seen a resurgence of interest in the doctrine of the trinity following a long period in which it was considered irrelevant to the rest of theology and to the challenge of christian life in this book david coffey claims that this resurgence is caused by a renewed appreciation of the fact that salvation itself has a trinitarian structure he argues that we cannot understand salvation without a solid understanding of the trinity coffey considers the full range of issues surrounding this central doctrine of christian faith viewing the doctrine of the trinity in its historical and ecumenical context he seeks to arrive at a balanced vision that incorporates the insights of both the western and the eastern churches in particular he

wants to keep in sight both the immanent trinity the godhead considered in itself and the economic trinity that is its role within the economy of salvation in coffeys own model of the trinity the holy spirit is seen as the objectivization of the mutual love of the father and the son this idea is most closely associated with st augustine and richard of st victor coffey however takes it much further presenting it as an explanation of the origin of the son and the holy spirit and of the manner of operation of the trinity in the economy from this model he is also able to derive a suggestion for resolving the ecumenical problem of filioquism vs monopatrism concerning the procession of the holy spirit the issue that has divided east from west for nearly a millennium presenting a new perspective on a topic of renewed theological interest this comprehensive study has important implications for ecumenical discussions of the trinity

Deus Trinitas 1999-09-09 in this book of meditations based on a series of meditations by the author shortly before he became archbishop of munich freising in 1977 theologian joseph ratzinger pope benedict xvi presents his profound thoughts on the nature and person of god building a bridge between theology and spirituality as he makes wide use of the sacred scriptures to reveal the beauty and mystery of who god is he writes about each of the three persons in the holy trinity showing the different attributes of each person and that god is three and god is one god is and the christian faith adds god is as father son and holy spirit three and one this is the very heart of christianity but it is so often shrouded in a silence born of perplexity has the church perhaps gone one step too far here ought we not rather leave something so great and inaccessible as god in his inaccessibility can something like the trinity have any real meaning for us it is certainly true that the proposition that god is three and god is one is and remains the expression of his otherness which is infinitely greater than us and transcends all our thinking and our existence but as joseph ratzinger shows if this proposition meant nothing to us it would not have been revealed and it could be clothed in human language only because it had already penetrated human thinking and living to some extent without jesus we do not know what father truly is this becomes visible in his prayer which is the foundation of his being a jesus who was not continuously absorbed in the father and was not in continuous intimate communication with him would be a completely different being from the jesus of the bible the real jesus of history in jesus prayer the father becomes visible and jesus makes himself known as the son the unity which this reveals is the trinity accordingly becoming a christian means sharing in jesus prayer entering into the model provided by his life i e the model of prayer

becoming a christian means saying father with jesus joseph ratzinger
pope benedict xvi

The God of Jesus Christ 2018 how may the notion of trinity become a practical down to earth living reality the parable of the good samaritan must be one of the most familiar stories of jesus yet we often miss what prompted it jesus asks the lawyer pointedly how do you read this workbook seeks to show how people may read their bibles in a most constructive way that leads to their living with and so loving truly the triune god the father of the lord jesus christ who shares life giving holy spirit with his people in nine study sessions for either individuals or small groups with questions for reflection after each readers are taken through the story of salvation from abraham to the new testament church s catechism they are presented with a particular strategy on how to approach the christian scriptures that the central actor in the drama the triune god more readily comes into view this workbook therefore addresses what seems an intractable problem no longer a formal creed from the fourth century and certainly not just a medieval scholastic game the goal is for the notion of trinity to become a practical down to earth living reality for the church and for individual disciples of jesus *God's Address--Living with the Triune God, Revised Edition* 2019-04-05 the study of christian theology in the last half century has seen a major renaissance in trinitarian thought which has attempted to connect trinitarian theology to all aspects of christian faith and practice this revival has often addressed the unfortunate split which has haunted much modern theological endeavour between theology and both prayer and practice the disjunction between thought about god and the movement of the heart toward god in transformed lives drawn from papers given at a pusey house conference in 2015 the contributors to this collection explore what it means to know and love the triune god and how the knowledge of god can be a transforming and saving knowledge

A Transforming Vision 2018-01-31 the triunity of the christian god is not just one isolated doctrine among others allan coppedge draws out the implications for our understanding of god s nature attributes roles relationship to creation and providence

The Triune God 1993 explores the nature of the trinity discussing the different attributes of each member of it and how they form a whole *The God Who Is Triune* 2007-10-01 the last century has witnessed a revival and renewal of trinitarian theology led initially by karl barth the legendary puzzles of trinitarian theology have become especially vexing in an era of changed philosophical and cultural categories and a host of religious thinkers in the last century have tried to reformulate the main

lines of thought about god's trinitarian life theologian stanley grenz here tells this story of trinitarian theology reporting and analyzing the remarkable ferment in the discipline and discussing especially eleven theologians on such issues as god's inner life vs god's relationship to creation immanent and economic trinity social vs psychological analogies for the relationships within god the relationship between trinity and christology the feminist critique of classical categories and how god's trinitarian life figures in evolution social justice and spirituality grenz's introduction places this ferment historically in the course of christian thought from the patristic period to now while his conclusion sets a future agenda for the doctrine and theology

The Triune God 1970-05 relating to god as father son and holy spirit can have a deep impact on one's faith ryken and lefebvre outline the saving mysterious practical and glorious trinity in this theologically rich resource

The God of Jesus Christ 2008 incorporation refers to the joint concept of the mutual indwelling of the father the son and the spirit and their mutual working together as one these two concepts are not new in christian thought but they are overlooked by many christian teachers and writers today and consequently by many christians in general the effect of this omission is that many common believers if not their teachers fall easily into the mistaken view that the three of the divine trinity exist separably act separably and therefore are separably three gods even though most know better than to say so this book is at one level a reaction to that mistaken view because the writers of the new testament were very far from it in their concept and utterance but at stake is not just the trinity as the capital teaching of the christian faith if that were not enough to be concerned about the essence of true christian experience is also greatly affected by our understanding of how the triune god is in himself and how he acts in himself for according to the new testament the essence of the believers life and living is the extension of the triune god's mutual indwelling and mutual working together as one within them thus at another level this book is a reaction to a merely moral and ethical view of the christian life because again the writers of the new testament present the christian life more profoundly as the believers incorporation of the triune god who lives and operates within them the content of this book is a careful consideration of the incorporation of the triune god in himself and with his believers as evidenced textually in the new testament particularly the gospel of john through the epistle of jude

Rediscovering the Triune God 2004 lesslie newbigin was arguably the greatest missionary thinker of the twentieth century after a successful

missionary career in south india newbigun pioneered missionary engagement with the secular west and resurgent islam he also led the way in arguing that the church s mission can only be understood in light of the doctrine of the trinity over fifty years ago newbigun called for the further development of missionary thinking grounded in the triune being of god this work is in response to that call adam dodds provides the first in depth study of newbigun s trinitarian theology of mission dodds constructs a systematic account of the central features of the mission of the triune god the triune being of god the mission of the son the mission of the holy spirit and the mission of the church this book contributes to our understanding of the work of lesslie newbigun offers a systematic theological account of the mission of the triune god and contributes to the retrieval of christian mission from the theological margins back to a place of central importance to christian theology

Our Triune God 2011 gloria schaab proposes to respond to cosmic suffering with the recognition that the triune christian god participates in the sufferings of the cosmos

The Incorporation of the Triune God in Himself and with His Believers

2023-07-04 the revival of trinitarian studies in the twentieth century ushered in a new era of theological innovation the renewed and dedicated articulation of the trinity as a doctrine in its own right is indeed noteworthy but more important and praiseworthy are the recent endeavours of theologians to integrate the doctrine of the trinity with other christian doctrines and with the many variegated aspects of the life and ministries of the church today it is common to encounter the term trinitarian being used as a modifier trinitarian worship trinitarian ecclesiology etc this book presents thomas f torrance as a participant theologian in this integrative paradigm because torrance argues that the trinity is the ground and grammar of theology his doctrine of salvation is consistently trinitarian but how did he formulate his unique trinitarian soteriology communion with the triune god seeks to answer this question

The Mission of the Triune God 2017-07-31 a sound introduction to a crucial doctrine emery s prose is scholarly yet widely accessible at once traditional and constructive themelios representing the highest quality of scholarship gilles emery offers a much anticipated exploration to catholic doctrine on the trinity his extensive research combined with lucid prose provides readers a resource to better understand the foundations of trinitarian reflection and addresses all who wish to benefit from an initiation to trinitarian doctrine the path proposed by this introductory work comprises six steps from liturgical and biblical ways for entering into trinitarian faith to the creative and saving action

of the trinity the book concludes with a doctrinal exposition of the missions of the son and holy spirit that is the salvific sending of the son and holy spirit that leads humankind to the contemplation of the father trinitarian doctrine is not easy but emery with his translator has rendered it intelligible and attractive exegetes theologians historians and liturgists alike will find the trinity related to their discipline most importantly the trinity will prepare its readers to enter higher levels of discussion about the trinity sacra pagina

The Creative Suffering of the Triune God 2007-10-18 this short volume finished just before denis farkasfalvy s death in 2020 serves effectively as his last theological testament throughout his scholarly career farkasfalvy aimed to reconcile and unite theological disciplines that had increasingly become isolated from each other most notably the biblical patristic and systematic in a biblical path to the triune god the cistercian abbot identifies the earliest biblical witnesses to the church s teaching about god formulated at the council of nicea as father son and holy spirit jesus famous praise of the father found almost word for word in matthew 11 25 27 and luke 10 21 22 is farkasfalvy s point of departure for his bold assertion that in the earliest sources we find abundant evidence that it was not jesus who revealed his own divine sonship rather the father revealed it to those whom jesus had chosen and were open to respond in faith farkasfalvy demonstrates that jesus reveals his relationship to the father in terms of intimate and experiential knowledge transforming the procreative metaphor of filiation from the physical as in the psalms and 2 samuel 7 to the epistemological realm of knowledge what he calls love within cognitive dimensions just decades after jesus ministry numerous independent apostolic witnesses from the synoptic gospels and john to paul especially romans 1 1 4 and galatians 1 15 16 indicate a robust and widespread understanding of the father s self disclosure in jesus the son farkasfalvy concludes his brief but intense reflection by outlining how a single organic process of revelation binds together the father and the son and then extends that loving communion to believers in the spirit a communion made possible only by the incarnate son s crucifixion and subsequent glorification this book accomplishes the admirable feat of showing that far from being the invention of later centuries the trinitarian doctrine of the church is firmly rooted in the very first reflections on jesus ministry and mystery by the biblical authors

Communion with the Triune God 2014-08-28 the complex nature of christian communion with a personal god requires a nuanced expression since its inception the early church affirmed god s unknowable nature and also participation in god through christ the church fathers employed

the language of theosis in talking about union with god and human transformation in the likeness of god however the term theosis or deification is a broad category and requires precise explanation to avoid human dissolution in the divine in the mystical union this book addresses the conundrum of imparticipable divine nature and personal union between human and the trinity if god is trinity then we are created and restored in the image of tripersonal god

The Trinity 2012-08-07 refuting the notion that the doctrine of the trinity may be indispensable for the creed but remote from life and worship james b torrance points us to the indispensable who of worship the triune god of grace he demonstrates why trinitarian theology is the very essence of christian confession

A Biblical Path to the Triune God 2021-10-15 how can the arts witness to the transcendence of the christian god it is widely believed that there is something transcendent about the arts that they can awaken a profound sense of awe wonder and mystery of something beyond this world many argue that this opens up fruitful opportunities for conversation with those who may have no use for conventional forms of christianity jeremy begbie a leading voice on theology and the arts in this book employs a biblical trinitarian imagination to show how christian involvement in the arts can and should be shaped by a vision of god s transcendence revealed in the person of jesus christ after critiquing some current writing on the subject he goes on to offer rich resources to help readers engage constructively with the contemporary cultural moment even as they bear witness to the otherness and uncontainability of the triune god of love

Triadosis: Union with the Triune God 2019-02-20 in from pentecost to the triune god steven studebaker puts forth a provocative pentecostal trinitarian theology arguing that the holy spirit completes the fellowship of the triune god and therefore shapes the identities of the father and the son the holy spirit studebaker maintains is not simply a passive end product of a procession from the father and son but rather a dynamic person who plays an active role in the trinity and a constitutional consummational role in the history of redemption in the course of his study studebaker shows the theological yield of the pentecostal experience of the holy spirit and uncovers the biblical narratives of the spirit from creation to pentecost a constructive and ecumenical contribution to trinitarian theology from pentecost to the triune god also engages major historical and contemporary figures such as augustine the cappadocians weinandy and zizioulas as well as representatives from the evangelical and charismatic traditions finally studebaker applies his pentecostal trinitarian theology to the theology of religions and creation

care proposing that christians embrace an inclusive posture toward people of other religious traditions and have an earth orientation that sees creation care as christian formation

Worship, Community and the Triune God of Grace 1997-07-02 christian teaching on the trinity has been both confusing and controversial this is partially due to early christian thinkers developing their thought on the basis of greek philosophy rather than on the revelation of god in jesus christ jim fowler commences this study with theologia the historical processes by which human beings formulate their considerations of the being of the christian triune god since humans can only know god to the extent that god has chosen to reveal himself the second section of the book deals with oikonomia the administration of god s work in revealing himself in the son jesus christ and by the holy spirit these objective categories then lead to the subjective personal experience of koinonia involving fellowship and participation of a christian individual with the triune god and with other believers in the body of christ the church

The Triune God of the Church of England, Etc. [Two Letters.] 1913 under the broad umbrella of the christian religion there exists a great divide between two fundamentally different ways of thinking about key aspects of the christian faith eugene webb explores the sources of that divide looking at how the eastern and western christian worlds drifted apart due both to the different ways they interpreted their symbols and to the different roles political power played in their histories previous studies have focused on historical events or on the history of theological ideas in search of the triune god delves deeper by exploring how the christian east and the christian west have conceived the relation between symbol and experience webb demonstrates that whereas for western christianity discussion of the doctrine of the trinity has tended toward speculation about the internal structure of the godhead in the eastern tradition the symbolism of the triune god has always been closely connected to religious experience in their approaches to theology western christianity has tended toward a speculative theology and eastern christianity toward a mystical theology this difference of focus has led to a large range of fundamental differences in many areas not only of theology but also of religious life webb traces the history of the pertinent symbols god as father son of god spirit of god messiah king etc from the hebrew bible and new testament through patristic thinkers and the councils that eventually defined orthodoxy in addition he shows how the symbols interpreted through the different cultural lenses of the east and the west gradually took on meanings that became the material of very different worldviews especially as the respective histories of the eastern and western christian worlds led them into different kinds of

entanglement with ambition and power through this incisive exploration webb offers a dramatic and provocative new picture of the history of christianity

Redeeming Transcendence in the Arts 2018-06-30 this book treats pannenberg s stated ambition to write a theology more thoroughly trinitarian than any i know of it evaluates it by answering two questions what does pannenberg mean by his theology being thoroughly trinitarian how far has his subsequent work especially systematic theology been successful in realizing his stated goal

From Pentecost to the Triune God 2012-12-19 the trinity and culture is a study of how human cultures relate to transcendence in general and to the triune god in particular it surveys the church s understanding of god as triune it describes some of the implications which trinitarian perspectives and values have for culture it explores the models and mental constructs which augustine pascal and others have developed to express their understandings of the relation of the triune god to human existence it suggests that a renewed understanding of the trinity can provide the church with a paradigm to guide humanity in building its cultures
