**A Guide to Argumentative Research Writing and Thinking** 2017-11-09 research is difficult even though students are trained in the basic research methodology skills when confronted with research writing it feels to them as if they enter a bizarre world with its own language and conventions where it is hard to get things right this book translates the apparent complexities of research writing into everyday ideas language and skills and will enable novice researchers to start overcoming the major stumbling blocks immediately this book focuses only on the greatest challenges in research writing specifically those that supervisors find most difficult to explain to novice researchers these challenges include both basic and more complex skills such as finding original research contributions establishing one's voice while drawing on other authors turning a vague idea into a feasible research question generating literature reviews that are original in themselves and avoiding list like writing when discussing the research methodology wentzel shows that it is easier to overcome these challenges not with lists of prescriptions that are difficult to remember while writing but rather by cultivating an argumentative mindset not only is such a mindset much easier to maintain but it offers a central point around which one can organise any difficult writing task the book shows how to use the argumentative mindset to approach every important writing challenge it translates all the necessary skills into jargon free language using a variety of visuals and simple step by step procedures that will enable any person to read the book quickly and start writing immediately the book is accompanied by a website containing an instructor's manual with guidance on the teaching and assessment of research writing as well as lecture slides

**Argumentative Essay (Speedy Study Guides)** 2015-04-24 persuade your readers to take your side of the argument by learning to craft strong argumentative essays exploding with well picked information this quick study guide will help you become more effective at argumentative writing in the next pages you will learn about doable tips on and the different stages of writing master the art of persuasion by ordering a copy today

**Writing Argumentative Essays** 2000-05 this brief rhetoric helps students develop strategies for critical reading critical thinking research and writing that will help them argue clearly and convincingly it teaches them to identify and develop arguments to read and form reactions and opinions of their own to analyze an audience to seek common ground and to use a wide realistic range of techniques to write argument papers that express their individual views and original perspectives on modern issues it includes clear explanations and examples of argument theory and reading and writing processes research and documentation skills and offers engaging class tested writing assignments and activities 49 essays for analysis cover several broad issue and sub issue areas all of contemporary concern unique chapters discuss student argument styles rogerian argument and argument and literature

**Argumentative Essay (Speedy Study Guides)** 2015-04-23 persuade your readers to take your side of the argument by learning to craft strong argumentative essays exploding with well picked information this quick study guide will help you become more effective at argumentative writing in the next pages you will learn about doable tips on and the different stages of writing master the art of persuasion by ordering a copy today

Argumentation in Actual Practice 2019-09-23 argumentation in actual practice contains a collection of topical studies about argumentative discourse in context written by argumentation scholars from a diversity of academic backgrounds some contributions provide general perspectives other contributions deal with specific issues particular types of argumentative discourse or individual argumentative speech events the contexts in which argumentation is examined vary from politics and the media to medical juridical educational commercial or military contexts a specific academic discipline a special issue or pertain to all kinds of contextualised argumentative discourse the issues discussed include the interpretation and analysis of argumentation strategic manoeuvring argument schemes the stock issues the fallacies the principle of charity and the persuasiveness of argumentative discourse a common feature is that they are all empirically oriented and that virtually all of them are strongly concerned with an adequate understanding of contextualised argumentative discourse and the factors that may increase or decrease its reasonableness and effectiveness

**Evaluating the Language of Argument** 2020-12-01 this book is concerned with the evaluation of natural argumentative discourse and in

particular with the language in which arguments are expressed it introduces a systematic procedure for the analysis and assessment of arguments which is designed to be a practical tool and may be considered a pseudo algorithm for argument evaluation the first half of the book lays the theoretical groundwork with a thorough examination of both the nature of language and the nature of argument this leads to a definition of argumentation as reasoning expressed within a procedure which itself yields the three frames of analysis used in the evaluation procedure process reasoning and expression the second half begins with a detailed discussion of the concept of fallacy with particular attention on fallacies of language their origin and their effects a new way of looking at fallacies emerges from these chapters and it is that conception together with the understanding of the nature of argumentation described in earlier sections which ultimately provides the support for the comprehensive assessment procedure for natural argumentation the first two levels of this innovative procedure are outlined while the third that dealing with language and involving the development of an informal argument semantics is fully described the use of the system and its power of analysis are illustrated through the evaluation of a variety of examples of argumentative texts

*Argumentation in Higher Education* 2009-09-10 argumentation in higher education offers professors lecturers and researchers informative guidance for teaching effective argumentation skills to their undergraduate and graduate students this professional guide aims to make the complex topic of argumentation open and transparent grounded in empirical research and theory but with student voices heard strongly throughout this book fills the gap of argumentation instruction for the undergraduate and graduate level written to enlighten even the most experienced professor this text contributes to a better understanding of the demands of speaking writing and visual argumentation in higher education and will undoubtedly inform and enhance course design the book argues for a more explicit treatment of argument the product and argumentation the process in higher education so that the ground rules of the academic discipline in question are made clear each chapter concludes with practical exercises for staff development use topics discussed include the importance of argument the current state of argumentation in higher education generic skills in argumentation the balance between generic and discipline specific skills information communication technologies and visual argumentation how can we best teach argumentation so that students feel fully empowered in their academic composition professors new and experienced lecturers researchers professional developers and writing coaches worldwide grappling with this question will find this accessible text to be an extremely valuable resource richard andrews is professor in english at the institute of education university of london

Topical Themes in Argumentation Theory 2012-05-05 topical themes in argumentation theory brings together twenty exploratory studies on important subjects of research in contemporary argumentation theory the essays are based on papers that were presented at the 7th conference of the international society for the study of argumentation issa in amsterdam in june 2010 they give an impression of the nature and the variety of the kind of research that has recently been carried out in the study of argumentation the volume starts with three essays that provide stimulating theoretical perspectives on argumentation subsequently some views are explained on the intriguing topics of dissensus and deep disagreement after a discussion of three different approaches to the treatment of types of argumentation some classical themes from antique argumentation theory are revisited the new research area of visual argumentation is explored in the next part the volume concludes with three reports of experimental studies concerning argumentative discourse the volume starts with three essays that provide stimulating theoretical perspectives on argumentation subsequently some views are explained on the intriguing topics of dissensus and deep disagreement after a discussion of three different approaches to the treatment of types of argumentation some classical themes from antique argumentation theory are revisited the new research area of visual argumentation is explored in the next part the volume concludes with three reports of experimental studies concerning argumentative discourse

Rhetorical Argumentation 2004-05-27 the study of argumentation has primarily focused on logical and dialectical approaches with minimal attention given to the rhetorical facets of argument rhetorical argumentation principles of theory and practice approaches argumentation from a rhetorical point of view and demonstrates how logical and dialectical considerations depend on the rhetorical features of the argumentative situation throughout this text author christopher w tindale identifies how argumentation as a communicative practice can best be understood by its rhetorical features

*Why Good Argument is Critical to Useful Research* 2007 writers like rorty popper dewey and feyerabend suggest that rather than searching for more and more exacting and rigorous rules for how to undertake well justified research we need to be concerned with communities of doubters these if adequately applying dialectic argument will act to challenge unjustified knowledge claims and so save us all from being deceived this book encourages doubt by providing over a dozen ways to critique research especially where that research results in knowledge claims about human activities each chapter provides another pragmatic conception of knowledge used to question the assumptions behind whatever research work you have just read therefore the book offers a way of learning about your own discipline specific research literature while also learning how to design a well justified research report

Advances in Argumentation Theory and Research 1982 for this volume the editors commissioned the top theorists in argumentation and human communication to submit essays in their areas of specialization because there are sixteen essays contributed by twenty one specialists many points of view are represented in this volume all of the essayists however look upon argumentation as a process of human communication not a species of formal logic these essayists see the function of argument as a method of attaining social knowledge the editors have assembled this volume to make available the latest advances in argumentation for scholars it serves as a state of the discipline report the editors have divided the book into four sections conceptual foundations reasoning and reasonableness methodological issues and uses of argument those contributing under the heading conceptual foundations are daniel j o keefe charles arthur willard ray d dearin and henry w johnstone jr contributors to the reasoning and reasonableness section are ray e mckerrow thomas b farrell barbara j o keefe pam ela j benoit malcolm o sillars and patricia ganer under methodological issues the contributors are scott jacobs sally jackson v william balthrop and dale hample contributors to uses of argument are ch perelman e culpepper clark robert p newman walter r fisher richard a filloy and richard d rieke reference list prepared by glenda rhodes and jack rhodes

**From Argument Schemes to Argumentative Relations in the Wild** 2019-10-23 this volume comprises a selection of contributions to the theorizing about argumentation that have been presented at the 9th conference of the international society for the study of argumentation issa held in amsterdam in july 2018 the chapters included provide a general theoretical perspective on central topics in argumentation theory such as argument schemes and the fallacies some contributions concentrate on the treatment of the concept of conductive argument other contributions are dedicated to specific issues such as the justification of questions the occurrence of mining relations the role of exclamation argumentative abduction eudaimonistic argumentation and a typology of logical ways to counter an argument in a number of cases the theoretical problems addressed are related to a specific type of context such as the burden of proof in philosophical argumentation the charge of committing a genetic fallacy in strategic manoeuvring in philosophy the necessity of community argument and connection adequacy for arguments with institutional warrants the volume offers a great deal of diversity in its breadth of coverage of argumentation theory and wide geographic representation from north and south america to europe and china

*Methods of Argumentation* 2013-08-26 this book written by a leading expert and based on the latest research shows how to apply methods of argumentation to a range of examples

Argumentative Essay 2018-05 extremely important essay form that lays the groundwork for persuading others to see your side students will be asked to write this essay type also known as a persuasive essay from grade school through college and definitely on standardized tests beyond school much of a career can be spent debating points to persuade your peers coworkers colleagues customers vendors constituents etc which is why the skill is important enough to be tested nationwide great for school these 6 laminated pages can last to support the

process of persuasion for a lifetime 6 page laminated guide includes understanding argument the writing process logic in argument six evidences of a good argument types of arguments what an argument requires arguable issues reading argumentative materials writing your own argument critical thinking prompts purpose parts of an argument types of claims types of evidence types of fallacies questions for reading writing an argument writing the argumentative essay understanding the audience research model essay outline sample essay

**Fundamentals of Argumentation Theory** 2013-11-05 argumentation theory is a distinctly multidisciplinary field of inquiry it draws its data assumptions and methods from disciplines as disparate as formal logic and discourse analysis linguistics and forensic science philosophy and psychology political science and education sociology and law and rhetoric and artificial intelligence this presents the growing group of interested scholars and students with a problem of access since it is even for those active in the field not common to have acquired a familiarity with relevant aspects of each discipline that enters into this multidisciplinary matrix this book offers its readers a unique comprehensive survey of the various theoretical contributions which have been made to the study of argumentation it discusses the historical works that provide the background to the field and all major approaches and trends in contemporary research argument has been the subject of systematic inquiry for twenty five hundred years it has been graced with theories such as formal logic or the legal theory of evidence that have acquired a more or less settled provenance with regard to specific issues but there has been nothing to date that qualifies as a unified general theory of argumentation in all its richness and complexity this being so the argumentation theorist must have access to materials and methods that lie beyond his or her home subject it is precisely on this account that this volume is offered to all the constituent research communities and their students apart from the historical sections each chapter provides an economical introduction to the problems and methods that characterize a given part of the contemporary research program because the chapters are self contained they can be consulted in the order of a reader s interests or research requirements but there is value in reading the work in its entirety jointly authored by the very people whose research has done much to define the current state of argumentation theory and to point the way toward more general and unified future treatments this book is an impressively authoritative contribution to the field

Argumentation Through Languages and Cultures 2022-11-16 this book examines argumentative situations as they develop in different cultures and language groups it considers the development of argumentation studies making greater allowance for the specificities of argument as developed by non mainstream cultures the contribution of jainism to the framework of philosophical disputation in india duel songs as an institutionalized argumentative genre practiced by ammassalik culture within the inuit community the application of the muslim theological legal reasoning system to evaluate two traditional pre muslim traditional practices in borneo the annotation of schemes on the basis of walton s taxonomy of argument schemes and wagemans periodic table of arguments methodology proposed for the reconstruction and analysis of double mode arguments in advertisements combining the instruments developed in social semiotics pragmatics and argumentation theory and a review of the argumentation theoretical literature on metaphor in argumentative discourse this book is of interest to students and researchers in argumentation studies rhetoric philosophy cultural studies and language studies previously published in argumentation volume 35 issue 1 march 2021 chapters annotating argument schemes and the study of metaphor in argumentation theory are available open access under a creative commons attribution 4 0 international license via link springer com

Argumentation in Science Education 2007-12-06 educational researchers are bound to see this as a timely work it brings together the work of leading experts in argumentation in science education it presents research combining theoretical and empirical perspectives relevant for secondary science classrooms since the 1990s argumentation studies have increased at a rapid pace from stray papers to a wealth of research exploring ever more sophisticated issues it is this fact that makes this volume so crucial

Foundations of Argumentative Text Processing 1999 this volume contains a collection of papers which each provide a survey of state of the art research on argumentative text processing

Examining Argumentation in Context 2009-06-11 examining argumentation in context fifteen studies on strategic maneuvering contains a selection of papers on strategic maneuvering in argumentative discourse starting point of all of these contributions is that a satisfactory

analysis and evaluation of strategic maneuvering is possible only if the argumentative discourse is first situated in the communicative and interactional context in which it occurs while some of the contributions present general views with regard to strategic maneuvering other contributions report on the results of empirical studies examine strategic maneuvering in a particular legal or political context or highlight the presentational design of strategic maneuvering examining argumentation in context therefore provides an insightful view of recent developments in the research on strategic maneuvering which is currently prominent in the study of argumentation

The Anthropology of Argument 2020-12-30 this innovative text reinvigorates argumentation studies by exploring the experience of argument across cultures introducing an anthropological perspective into the domains of rhetoric communication and philosophy the anthropology of argument fills an important gap in contemporary argumentation theory by shifting the focus away from the purely propositional element of arguments and onto how they emerge from the experiences of peoples with diverse backgrounds demonstrating how argumentation can be understood as a means of expression and a gathering place of ideas and styles confronting the limitations of the western tradition of logic and searching out the argumentative roles of place orality myth narrative and audience it examines the nature of multi modal argumentation tindale analyzes the impacts of colonialism on the field and addresses both optimistic and cynical assessments of contextual differences the results have implications for our understanding of contemporary argumentative discourse in areas marked by deep disagreement like politics law and social policy the book will interest scholars and upper level students in communication philosophy argumentation theory anthropology rhetoric linguistics and cultural studies

**The Quest for Argumentative Equivalence** 2020-02-17 what are the implications of strategic manoeuvring for the activity of the simultaneous interpreter this is the main question addressed in the quest for argumentative equivalence based on the analysis of a multilingual comparable corpus named argo the book investigates political argumentation with an eye to its reformulation by interpreters after reporting and discussing a series of case studies illustrating interpreters problems in the political context the study reconstructs the prototypical argumentative patterns used by obama cameron sarkozy and hollande not only in a hermeneutical perspective but also considering interpreters need to reproduce them into a foreign language situated at the intersection of argumentation theory and interpreting studies the book provides a contribution to the descriptive study of political argumentation highlighting the presence of interpreters as a key contextual variable in political communication and deepening the study of the interlinguistic and translational implications of the act of arguing

Argument and Evidence 2002-01-22 phelan and reynolds book is for anyone who needs to evaluate arguments and interpret evidence it deals with the most fundamental aspects of academic study the ability to reason with ideas and evidence to formulate arguments effectively to appreciate the interplay between ideas and evidence in academic and media debate argument and evidence presents aspects of informal logic and statistical theory in a comprehensible way enabling students to acquire skills in critical thinking which will outlast their undergraduate studies ideal as a companion for courses on methodology or study skills argument and evidence will also be useful for other disciplines in the social sciences and humanities

**Argumentation in Chemistry Education** 2022-06-29 scientists use arguments to relate the evidence that they select from their investigations and to justify the claims that they make about their observations this book brings together leading researchers to draw attention to research policy and practice around the inclusion of argumentation in chemistry education

**The Theoretical Background and Practical Implications of Argumentation in Ireland** 2016-09-23 while the association between the words ireland and argumentation may not necessarily look particularly straightforward this book shows that they are in fact closely connected specifically the volume offers a linguistic perspective to suggest that the study of reasoned argument is likely to have a wide range of potential applications in the context of irish public discourse taking two of the classic favourite subjects of inquiry of contemporary argumentation theory it addresses the issue of the construction of argumentation in the judiciary and in the politics of the irish republic on the basis of three illustrative case studies the book explores which methods can be used to identify distinctive aspects of the language at

work in public settings where argumentation is the expected form of interaction and the ways in which such methods can lead to an integrated approach to the study of argumentative language in Irish public discourse in the interest of field scholars and practitioners alike

**Reasonableness and Effectiveness in Argumentative Discourse** 2015-08-27 this volume presents 50 contributions on the themes of reasonableness and effectiveness and their connections which are central issues in argumentation theory it discusses van eemeren's views on the study of argumentation the approach to argumentation adopted in pragma dialectics pragma dialectical perspectives on the dialectical and pragmatic dimensions of argumentative discourse the notion of strategic maneuvering the pragma dialectical method of analyzing argumentative discourse the treatment of fallacies as violations of rules for critical discussion pragma dialectical views on context the role of logic verbal indicators of argumentative moves and argument schemes and the process of writing and rewriting argumentative texts the pragma dialectical quantitative approach to empirical research on argumentative discourse is illustrated by reporting on selected illustrative experimental studies as well as qualitative studies of historical cases

*Crucial Concepts in Argumentation Theory* 2001 crucial concepts in argumentation theory is a collection of essays that discuss a series of important issues in the study of argumentation the essays describe the concepts that are crucial to argumentational research and the various ways these concepts have been approached the essays explore such issues as points of view unexpressed premises argument schemes argumentation structures fallacies argument interpretation and reconstruction and argumentation in law each of the essays provides interested readers with an overview of the literature that can serve as a point of departure for further study

**Essays in Argument** 2001 contextualizing pragma dialectics contains a selection of 18 articles reporting on research conducted in the past decade in which the institutional context in which argumentative discourse takes place is systematically taken into account some articles provide relevant theoretical backgrounds other articles make clear how the extended pragma dialectical theory can be used to analyse and evaluate argumentative discourse in specific institutional contexts next to argumentative discourse in the legal domain and the medical context of health communication a great deal of attention is paid to various argumentative practices in the political domain or dealing with specific social issues a contribution on multimodal argumentation is also included all contributing authors are actively engaged in the international learned institute for argumentation studies ilias

Contextualizing Pragma-Dialectics 2017-12-12 this volume contains a selection of papers from the international conference on argumentation amsterdam 2002 by prominent international scholars of argumentation theory it provides an insightful cross section of the current state of affairs in argumentation research it will be of interest to all those working in the field of argumentation theory and to all scholars who are interested in recent developments in this field

Anyone Who Has a View 2012-12-06 the book offers a compact but comprehensive introductory overview of the crucial components of argumentation theory in presenting this overview argumentation is consistently approached from a pragma dialectical perspective by viewing it pragmatically as a goal directed communicative activity and dialectically as part of a regulated critical exchange aimed at resolving a difference of opinion as a result the book also systematically explains how the constitutive parts of the pragma dialectical theory of argumentation which are discussed in a number of separate publications hang together the following crucial topics are discussed 1 argumentation theory as a discipline 2 the meta theoretical principles of pragma dialectics 3 the model of a critical discussion aimed at resolving a difference of opinion 4 fallacies as violations of a code of conduct for reasonable argumentative discourse 5 descriptive research of argumentative reality 6 analysis as theoretically motivated reconstruction 7 strategic manoeuvring aimed at combining achieving effectiveness with maintaining reasonableness 8 the conventionalization of argumentative practices 9 prototypical argumentative patterns 10 pragma dialectics amidst other approaches argumentation theory a pragma dialectical perspective is clearly written and makes argumentation theory understandable to all scholars and advanced students interested in argumentation research

**Argumentation Theory: A Pragma-Dialectical Perspective** 2018-07-27 this book suggests that business research in the collection analysis and communication of evidence will benefit from explicit acceptance of research as argumentation argumentation is the process of

compiling an argument through selection and organization of the relevant evidence recently business research methods books have placed too much emphasis on the scientific method as brute empiricism using only large sample statistical testing and demanding prediction through retesting old theories especially with regard to the study of human activity there is now much evidence that there is not one special scientific method this book argues that all types of empirical data including statistics and personal experiences be accepted as data but that it is essential that these observations be explained this book will provide researchers and postgraduate business students with a strategy for conducting research that encourages thought provides a way of critically perceiving previous research as well as suggesting a logical structure for communicating their research

Business Research Through Argument 1995-11-30 argumentative style discusses the various ways in which the defence of a standpoint is given shape in argumentative discourse in this innovative study the new notion argumentative style introduced for this purpose is situated in the theoretical framework of the pragma dialectical approach to argumentation this means that the choices involved in utilising a particular argumentative style do not only concern the presentational dimension but also the topical selection and the audience adaptation of the strategic manoeuvring taking place in the discourse in identifying the functional variety of the argumentative styles utilised in the political the diplomatic the legal the facilitatory the academic and the medical domain the point of departure is that these argumentative styles manifest themselves in the discourse in the argumentative moves that are made the dialectical routes that are chosen and the strategic considerations that are brought to bear

Argumentative Style 2022-07-15 this volume identifies and analyses english words and expressions that are crucial for an adequate reconstruction of argumentative discourse it provides a systematic set of instruments for giving a well founded analysis that results in an analytic overview of the elements that are relevant for the evaluation of the argumentation by starting from everyday examples the study immediately connects with the practice of argumentative discourse

**Argumentative Indicators in Discourse** 2007-06-07 use of argumentation methods applied to legal reasoning is a relatively new field of study the book provides a survey of the leading problems and outlines how future research using argumentation based methods show great promise of leading to useful solutions the problems studied include not only these of argument evaluation and argument invention but also analysis of specific kinds of evidence commonly used in law like witness testimony circumstantial evidence forensic evidence and character evidence new tools for analyzing these kinds of evidence are introduced

*Argumentation Methods for Artificial Intelligence in Law* 2005-12-05 featuring multidisciplinary and transcultural investigations this volume showcases state of the art scholarship about the impact of argumentation based discourses and field specific argumentation practices in a wide range of communities of practice belonging to the media social legal and political spheres the investigations make use of integrative wide ranging theoretical perspectives and empirical research methodologies with a focus on argumentation strategies in real life environments both private and public and in constantly growing virtual environments this book brings together linguists argumentation scholars philosophers and communication specialists who convincingly show how interpersonal and or intergroup interactions shape challenge or change the argumentative practices of users what argumentation skills and strategies become critical and consequential how argumentative discourse contexts may stimulate or prevent critical reflection and debate and what are the wider implications at personal institutional and societal levels reaching beyond the boundaries of linguistics and argumentation sciences this book should be a valuable resource for researchers as well as practitioners in the fields of pragmatic linguistics argumentation studies rhetoric discourse analysis political sciences and media studies

**Argumentation across Communities of Practice** 2017-11-15 this book traces the issue in argumentative discussions from its emergence to its evolution the book makes use of naturally occurred data of spoken argumentation to investigate how an issue is raised and possibly negotiated in argumentative discussions between young children aged 2 to 6 years and adults the author proposes a typology of the emergence of issues based on the argumentative agency of the interlocutors moreover the investigation sheds light on how issues

evolve through negotiation among the involved interlocutors and how issues may be related to the interlocutors endoxa by applying an interdisciplinary approach including argumentation theory the pragma dialectical model of a critical discussion and the argumentum model of topics as well as sociocultural developmental psychology this work allows for a careful consideration of the many aspects that come into play when young children start or engage in an argumentative discussions with adults

An Argumentative Analysis of the Emergence of Issues in Adult-Children Discussions 2021-04-15 we are pleased to publish this wsia edition of trudy s govier s seminal volume problems in argument analysis and evaluation originally published in 1987 by foris publications this was a pioneering work that played a major role in establishing argumentation theory as a discipline today it is as relevant to the field as when it first appeared with discussions of questions and issues that remain central to the study of argument it has defined the main approaches to many of those issues and guided the ways in which we might respond to them from this foundation it sets the stage for further investigations and emerging research this is a second edition of the book that is corrected and updated by the author with new prefaces to each chapter

Problems in Argument Analysis and Evaluation 2018-06-22 argue well to live well political argument is grounded in the belief that proper research clear communication and effective argumentation help students write better papers think more clearly and even improve their quality of life and the lives of those around them this book helps students hone their critical thinking skills by presenting them with logical fallacies common difficulties with research and exercises throughout making it a comprehensive guide for students faced with presenting arguments or writing a research paper provided by publisher

**Political Argument** 2017 argumentation arriving at conclusions on a topic through a process of logical reasoning that includes debate and persuasion has in recent years emerged as a central topic of discussion among science educators and researchers there is now a firm and general belief that fostering argumentation in learning activities can develop students critical thinking and reasoning skills and that dialogic and collaborative inquiries are key precursors to an engagement in scientific argumentation it is also reckoned that argumentation helps students assimilate knowledge and generate complex meaning the consensus among educators is that involving students in scientific argumentation must play a critical role in the education process itself recent analysis of research trends in science education indicates that argumentation is now the most prevalent research topic in the literature this book attempts to consolidate contemporary thinking and research on the role of scientific argumentation in education perspectives on scientific argumentation brings together prominent scholars in the field to share the sum of their knowledge about the place of scientific argumentation in teaching and learning chapters explore scientific argumentation as a means of addressing and solving problems in conceptual change reasoning knowledge building and the promotion of scientific literacy others interrogate topics such as the importance of language discursive practice social interactions and culture in the classroom the material in this book which features intervention studies discourse analyses classroom based experiments anthropological observations and design based research will inform theoretical frameworks and changing pedagogical practices as well as encourage new avenues of research

**Perspectives on Scientific Argumentation** 2011-09-30 argumentation as a teaching and learning method in the k 12 curriculum has received increasing attention across the globe the reason for this is simple argumentation helps students develop necessary critical thinking skills however teaching this method is not as straightforward as it may appear placing the classroom at the centre of the investigation this book seeks to throw light onto argumentation as a teaching practice by asking what does it take to teach as argument what does it mean to be argumentative teachers and how can we create classroom environments that will help and encourage young people to develop their argument skills based on first hand experience and extensive research this volume guides the reader through argumentation with the focus placed on the relationship between this teaching method and effective learning and the need to investigate the role of teachers in encouraging argumentation in the classroom although there are a considerable number of tools and techniques that promote argumentation in the k 12 classroom many teachers struggle to successfully implement them in the classroom aimed at addressing this

issue this book endeavours to instruct teachers on how to apply argumentation effectively in their day to day classes and to clarify argumentation as a teaching and learning strategy as an important contribution to the field of argumentation and education this book will be of interest to researchers post graduate students and secondary school teachers alike
