when lincoln took office in march 1861 the national government had no power to touch slavery in the states where it existed lincoln understood this and said as much in his first inaugural address noting i have no purpose directly or indirectly to interfere with the institution of slavery in the states where it exists how then asks paul finkelman in the introduction to lincoln congress and emancipation did lincoln who personally hated slavery lead the nation through the civil war to january 1865 when congress passed the constitutional amendment that ended slavery outright the essays in this book examine the route lincoln took to achieve emancipation and how it is remembered both in the united states and abroad the ten contributors all on the cutting edge of contemporary scholarship on lincoln and the civil war push our understanding of this watershed moment in us history in new directions they present wide ranging contributions to lincoln studies including a parsing of the sixteenth president s career in congress in the 1840s and a brilliant critique of the historical choices made by steven spielberg and writer tony kushner in the movie lincoln about the passage of the thirteenth amendment as a whole these classroom ready readings provide fresh and essential perspectives on lincoln s deft navigation of constitutional and political circumstances to move emancipation forward contributors l diane barnes jenny bourne michael burlingame orville vernon burton seymour drescher paul finkelman amy s greenberg james oakes beverly wilson palmer matthew pinsker

what does it mean to say that native peoples exist in the present in beyond settler time mark rifkin investigates the dangers of seeking to include indigenous peoples within settler temporal frameworks claims that native peoples should be recognized as coeval with euro americans rifkin argues implicitly treat dominant non native ideologies and institutions as the basis for defining time itself how though can native peoples be understood as dynamic and changing while also not assuming that they belong to a present inherently shared with non natives drawing on physics phenomenology queer studies and postcolonial theory rifkin develops the concept of settler time to address how native peoples are both consigned to the past and inserted into the present in ways that normalize non native histories geographies and expectations through analysis of various kinds of texts including government documents film fiction and autobiography he explores how native experiences of time exceed and defy such settler impositions in underscoring the existence of multiple temporalities rifkin illustrates how time plays a crucial role in indigenous peoples expressions of sovereignty and struggles for self determination

from the advent of cinema hollywood s acquaintance with the unbridled truth has been passing at best nonfiction has always been standard fodder for filmmakers but rare is the screenwriter who ever met a story that couldn t use a touch of embellishment as early as the silent film era lawsuits were filed against movie studios for their fictitious depictions of purportedly real events the moviemakers claim artistic license as picasso said art is a lie that tells the truth when the lie and the truth become inextricably mixed the effect on the lives of the people involved can be dramatic even devastating the first lawsuit claiming a libelous onscreen portrayal of a real person was filed in 1916 and the debate about filmmakers responsibilities when depicting real people and events has raged ever since this examination of fact based films and the law begins with a history of the legal issues surrounding the fictionalization of real events and people the court case over the perfect storm a film that spawned lawsuits from the families of the people depicted in the film is then explored in depth the next chapter analyzes fact versus fiction in 13 courtroom dramas movies for which court documents provide clear historical records a chapter devoted to actors so identified with a character that they sought legal acknowledgment of exclusive rights to that fictional persona follows notes a bibliography and an index accompany the text

movie musicals are among the most quintessentially american art forms often celebrating mobility self expression and the pursuit of one s dreams but like america itself the hollywood musical draws from many distinct ethnic traditions in this illuminating new study desirée j garcia examines the lesser known folk musicals from early african american yiddish and mexican filmmakers revealing how these were essential ingredients in the melting pot of the hollywood musical the migration of musical film shows how the folk musical was rooted in the challenges faced by immigrants and migrants who had to adapt to new environments balancing american individualism with family values and cultural traditions uncovering fresh material from film industry archives garcia considers how folk musicals were initially marginal productions designed to appeal to specific minority audiences and yet introduced themes that were gradually assimilated into the hollywood mainstream no other book offers a comparative historical study of the folk musical from the first sound films in the 1920s to the genre s resurgence in the 1970s and 1980s using an illustrative rather than comprehensive approach garcia focuses on significant moments in the sub genre and rarely studied films such as *allá en el rancho grande* along with familiar favorites that drew inspiration from earlier folk musicals everything from the wizard of oz to zoot suit if you think of movie musicals simply as escapist mainstream entertainment the migration of musical film is sure to leave you singing a different tune
