the unseen realm of the spiritual world with their teacher michael along with good friend eugene trout they would become the creators of a new spiritual teaching based in love that is used to help women s writing excerpt from moral discourses enchiridion and fragments i hesitated for some time whether to call this book simply a revision of elizabeth carter s translation or a new one based on hers the latter alternative was finally chosen less in order to claim for myself any credit of hers than to save her from sharing any dis credit of mine the enterprise was begun simply as a revision but to revise any translation made a century ago is like underrunning a telegraphic cable one may inspect a good deal of it and find but trifling repairs needful and then one may come to a point where a wholly new piece must go in these substitutions multiplied so rapidly and even where the changes were slight they touched words and phrases so vital that the name i have chosen is really the least dishonest that could be given after all it shows the thoroughness of elizabeth carter s work that this process of underrunning was practicable at all with the loose dashing piquant school of translators who preceded her in that century as l estrange and collier such an attempt would have been absurdity they are very racy reading in deed a capital study for coarse colloquial english but there is no foundation of accuracy in them yet the style of epictetus has a concise and even delicate precision which no language but greek could perhaps attain and to do justice to this without loss of popular intelligibility requires all elizabeth carter s faithfulness combined with an amount of purely literary effort which she did not always make she apologizes in her letters for the uncouthness in many places of a version pretty strictly literal if she erred on this side perhaps i have erred in allowing myself a terminology not more diffuse than hers but more pliant and varied but after all unless a new english version is to be popularized there seems no use in making it at all about the publisher forgotten books publishes hundreds of thousands of rare and classic books trauma and transformation hope and anguish in a time of reckoning the first section offers biographical fragments about life after the bulldozer runs you over how do you get up how do you live with others who don't understand how do you keep walking they draw upon life experiences in boston iona and new jersey faith is not so much about agreeing with doctrine but a dynamic active seeking questioning trust in god it includes both audacity and humility the second section draws upon fragments of historical reflection on violent innocence mourning and metanoia in new jersey this is an exploration of the principality of white racism state based violence and exploitation of the poor it asks the question how did the confederate flag get in the front window of the presbyterian church on lincoln's birthday some of the white terrorism that happened at the capitol is prefigured here yet there is grace hidden in judgment we cannot heal from what we do not name the third section contains fragments of prophetic wisdom from lorna goodison richard fenn mike gecan karen hernandez granzen and archange antoine along with traci west and chris hedges their voices are strong and true an essential handbook for righting grammatical errors was the computer affected by a virus or effected by it did you see two deers in the woods or two deer should the lab report be sent to tom and me or tom and i if i was you provides the tools you need to correct the grammatical mistakes you've been making each entry includes sample sentences that highlight the error as well as a straightforward explanation of why it's wrong and the correct grammar usage whether you're working on a term paper or an important business presentation this indispensable handbook shows you how to rectify your grammatical goofs and effectively communicate with others covering everything from verbs and pronouns to punctuation and sentence structure if i was you is the only guide you need to master the principles of grammar avoid common errors and write more impressively david herbert lawrence 1885 1930 was an english novelist poet playwright and literary critic one of the key writers of the early twentieth century most famous for his criticism of rationalism and industrialization a fragment of stained glass and other stories is a delightful collection of author's early short stories like the thorn in the flesh daughters of the vicar the shadow in the rose garden and goose fair elizabeth f szewczyk wastes no time in the very first poem of fragments of survival she invites us in by recreating for us and for herself one of the most profound moments in the lives of us all and she does so by weaving the harrowing with the profoundly tender observing with heartbreaking accuracy the making of a boy whom she suggests will grow into an abusive man the boy buries his toy trucks in the back yard buries them in the corner side of the house by the gladiolas then plants the hating seed waters with tears these fabulous poems rise from the page gently yet each carries with it the weight of some wise insight recognizable and yet utterly new and singular whether she takes us apple picking or into the depths of winter where something terrible and cold emerges whether she welcomes the promise of new spring and the miracle of youth or a devastating inevitable loss this book overflows with magnificent poems powerfully satisfying and human in an extraordinarily honest and clear voice read this book john l stanizzi after the bell and hallelujah time horrendous experiences are beautifully packaged in this depiction of the torture a child endures when sexually abused pain confusion dread loneliness and fear steal her childhood she has no reason to assume she will grow up no expectation of surviving the torture life has delivered to her but astounding writing incredible imagery and the protagonist's honesty convince us that the sharing of dreadful memories gains freedom and salvation not only for her but for readers as well rebecca leo the flaws that bind what plants the hating seed inside of others inside of us and what is the winding path to peace these are the dark and difficult topics that elizabeth szewczyk explores in her new poetry collection fragments of survival ms szewczyk's poems are honest and wise and demonstrate that while the traumas of the past may never fully leave us they do not need to hold us back from who we are meant to become chloe mcfeters c is for courage the ally within and still but not silent from the mid 1930s to 1978 elizabeth bishop published some ninety poems and thirty translations yet her notebooks reveal that she embarked upon many more compositions some existing in only fragmentary form and some embodied in extensive drafts edgar allan poe the juke box presents alongside facsimiles of many notebook pages from which they are drawn poems bishop began soon after college reflecting her passion for elizabethan verse and surrealist technique love poems and dream fragments from the 1940s poems about her canadian childhood and many other works that heretofore have been quoted almost exclusively in biographical and critical studies this revelatory and moving selection brings us into the poet's laboratory showing us the initial provocative images that moved bishop to begin a poem illustrating terrain unexplored in the work published during her lifetime editor alice quinn has also mined the bishop archives for rich tangential material that illuminates the poet's sources and intentions based on a phd thesis for the department of literature and creative writing at the university of east anglia preface reprint of the original first published in 1883 this book takes a radical approach to the study of traditional songs folk song scholarship was originally obsessed with notions of completeness and narrative coherence even now long narratives hold a privileged place in most folk song canons yet field notebooks and recordings and increasingly publications overwhelmingly suggest that apparently broken

and drastically shortened versions are not perceived as incomplete by those who sing them dealing with a wide range of traditions and languages this study turns the focus on these dog ends of oral tradition and looks closely at how very short texts convey meaning in performance by working the audience's knowledge of a highly allusive idiom what emerges is the tenacity of meaning in the connotative and metaphorical language of traditional song and the extraordinary adaptability of songs in different cultural contexts such pieces have a strong metonymic force they should not be seen as residual last leaves of a once complete tradition but as dynamic elements in the process of oral transmission not all song fragments remain in their natural environment and this book also explores relocations and dislocations as songs are adapted to new contexts a ballad of love and death is used to count pins in lace making song snippets trail subversive meanings in the novels of Charles Dickens because they are variable and elusive to dating songs have had little attention from the literary establishment the authors show both how certain critical approaches can be fruitfully applied to song texts and how concepts from studies in oral traditions prefigure aspects of contemporary critical theory like the songs themselves this book crosses and recrosses the perceived divide between the literary and the oral coverage includes English Welsh Breton American and Finnish songs this title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology this title was originally published in 1979 this second volume to report on the results of recent excavations at the late Roman Byzantine and Ottoman city of Amorium in Turkey presents a broad range of themes in order to introduce the reader more generally to the scope of the archaeology and the history of the site the unfinished manner examines the fragments produced by European writers and artists in the eighteenth century and earlier fragments that were not the result of an inability to finish either texts or buildings but rather deliberate refusals to make the traditional gestures of conclusion most books published in the past few years on the fragment and the unfinished see it as a peculiarly romantic early nineteenth century exclusively poetic form Elizabeth Wanning Harries argues instead that the fragment not only had a long history beginning with Petrarch but also played an important part in the history of the novel and other kinds of prose conceptualizing the fragment as a genre Harries sheds a new light on the practice of reading fiction and reading ruins in the eighteenth century complex practices that often require oscillation between two perspectives or ways of reading she also explores the gendering of forms in eighteenth century aesthetics the perception of fragments as feminine beautiful rather than masculine sublime and speculates on the fragment's meaning within the context of eighteenth century social mythologies as well as those of later eras finally she rereads Coleridge's *Kubla Khan* to show its roots in eighteenth century fragmentary textual practices the unfinished manner takes up the questions that arise when writers and artists treat apparently unfinished forms fragments ruins torsos sketches as finished both in the eighteenth century and implicitly today Harries's treatments of Petrarch as the initiator of the fragment tradition of Sterne in relation to biblical criticism of Coleridge's *Kubla Khan* in relation to Sterne's *Tristram Shandy* and of fragments in their relation to the feminine are original and revisionary contributions that seriously challenge some critical assumptions about romanticism and its relationship to eighteenth century texts book jacket title summary field provided by Blackwell North America Inc all rights reserved in the two related works in this volume Bentham offers a detailed critique of William Blackstone's commentaries on the laws of England 1765 9 in comment on the commentaries on which Bentham began work in 1774 he exposes the fallacies which he claims to have detected in Blackstone and criticizes the theory of the common law he goes on to provide important reflections on the nature of law and more particularly on the nature of customary and of statute law and on judicial interpretation a fragment on government which was published in 1776 was detached from the comment on the commentaries concentrating on a passage of five or six pages in which Blackstone discusses the origin of society and government Bentham offers three main criticisms first he criticizes Blackstone's methodology for failing to distinguish between the role of the expositor and the role of the censor and thereby confusing the question of what the law is with the question of what the law ought to be second he criticizes Blackstone's assumption that the theory of the social contract represents an adequate justification of the obligation to obey government third he criticizes Blackstone's theory of sovereignty which claims that in every state there must exist some absolute undivided power whose commands are law Bentham points to the existence of states where sovereign power is both divided and limited in these two works published by OUP for the first time Bentham outlines a number of themes which he goes on to develop in his later works the principle of utility the importance of a natural arrangement for a legal system the point at which resistance to government becomes justifiable the exposition of legal terms and much more the volume also contains Bentham's preface intended for but not published in the second edition of a fragment on government which appeared in 1823 having by this committed himself to political radicalism Bentham uses this occasion to reflect on the text and the circumstances in which it was produced the text has been edited by H L A Hart and J H Burns whose reputations in their respective fields of legal theory and history of political thought are unsurpassed the volume contains an editorial introduction which explains the provenance of the text and the method of presentation the texts are fully annotated with textual and historical notes and the volume is completed with a detailed subject index based on a methodology devised by Hart
