Human Manipulation Modes 2015-08-25 do you think that no one can control you well we sincerely feel sorry for you because it means that you do not know anything about natural manipulation modes no one thought up manipulation modes as it is a purely natural mechanism which is built into psyche of every human being at the level of unconditioned

reflexes and instincts therefore no human being can resist their application using technological terms manipulation modes are the factory settings of mother nature itself they are built into the structure of psyche of homo sapiens at the level of instincts and unconditioned reflexes meaning inborn reactions of an organism to certain influences of the external or the internal environment manipulation modes are implanted in the unconscious part of human psyche since birth any representative of the biological type homo sapiens has three of these modes suppressing balancing and stimulating originally they are modes of self correction and self regulation intended to ensure that a human could regulate the state of his psychophysiology and behavior from within himself however as it turned out if you know natural manipulation modes of an individual and transmit them towards him/her from the outside then he/she becomes one hundred percent controllable like a robot machine it is a priori impossible to notice the influence of application of natural manipulation modes of a human the influence bypasses consciousness and intellect of the subject of manipulation no one is able to notice transmittance of natural manipulation modes towards him/her regardless of his/her professional skills educational level life experience and intuition as these modes are an inherent part of individual structure of human psyche they are his/her own native what is called closer than skin probably the unprecedented power of this tool and its effectiveness are due to that it is a nature's creation nobody invented or developed manipulation modes information about this natural mechanism and practical tool for managing a human are of a very archaic origin both were accidentally found by a russian researcher sinologist andrey davydov while he was studying one very ancient source the title of this source is □□

□ shan hai jing translated from chinese as the catalog of mountains and seas authorship and the exact dating of shan hai jing are still unknown however according to some experts it dates back to xxiii century bc the existence of this text has long been known the ancient chinese philosopher confucius iv v centuries bc was familiar with it but prior to the discovery made by andrey davydov no one even supposed what kind of information is encrypted in this ancient source however despite that the researcher was able to uncover the secret of shan hai jing and find out that this ancient chinese monument is nothing other than the original instruction to homo sapiens the description of a blueprint pattern of human psyche this source still remains mysterious at least because it is still unknown who left the writings with this knowledge to people we think that it is easy to conclude from everything stated above that your favorite mantra it is impossible to manipulate me will no longer help you despite that your fantasies about being unmanageable will remain with you and just like before you will feel absolute freedom independence and randomness of all of your actions if someone will want you to then you will twitch like a puppet on invisible strings all that now remains in your power it to decide whether to continue being a subject for someone s manipulations or to choose the position of a manipulator there is no third option anymore however we are not suggesting to believe in that this is really the case we never urge anyone to believe including us because we know that faith is one of the factors which has a very harmful effect on human psychophysiology we are offering a different life principle knowledge and for this reason we provided one of the 3 manipulation modes of people who were born on october 12th of leap years or october 13th of common years at the end of this book for free this manipulation scenario is of their

suppressing manipulation mode act out this scenario to people with these dates of birth and make certain that the catalog of human population really exists

Reign of the Anunnaki 2018-09-11 reveals the ongoing alien manipulation of humanity and how we can break free explores how the anunnaki have maintained invisible surveillance over us and how they control our development through religion secret societies and catastrophes reveals how they feed off our energies and how this ability has allowed them to remain here on earth as multidimensional entities enforcing their control invisibly explains how they established religion to control us and how gnostic christianity which came from christ and not the anunnaki offers a way out of their matrix of control cuneiform texts found on clay plates in mesopotamia tell us about an extraterrestrial race called the anunnaki who came from space to exploit our planet through genetic manipulation they created modern humans from existing earthly life forms to serve them as slaves they physically left our planet millennia ago but as jan erik sigdell reveals their influence and control over humanity is still pervasive and significant sigdell explains how the anunnaki have maintained invisible surveillance over us as well as control over how humanity develops setting limits on our evolution and holding back our development by means of manipulation and catastrophes including the deluge immortalized in the bible and many other ancient myths he shows how they still manipulate our politics and affairs via secret societies such as the illuminati and the political elite such as the bilderberg group examining ancient descriptions of the anunnaki as entities that resemble winged reptiles or amphibians the author also explores their diet and how they feed off blood and the energies given off by lower life forms such as humans when they are expressing

extreme negative emotions having sex or dying this energy feeding ability has allowed them to remain here on earth as multidimensional entities enforcing their control invisibly he explains how the anunnaki established religions as tools for control setting up the major religions with themselves as gods and playing them against each other to keep humanity s attention away from ongoing anunnaki manipulation they have also hidden from us the existence of the true highest creator who created the cosmos as well as the anunnaki themselves the author reveals how the highest creator sent a messenger called jesus to expose the anunnaki and show us a way out of their matrix of control through a spirituality based on love empathy and sacred sexuality but the god of the anunnaki defeated this messenger and replaced him with a false christ this led to the development of paulinian christianity under anunnaki influence as well as other parallel religions such as islam and the suppression and elimination of the original christianity gnostic christianity with the discovery of hidden gnostic texts and teachings at nag hammadi in 1945 the way is now paved for our release from the reign of the anunnaki

Translation and the Manipulation of Difference 2014-06-03 translation and the manipulation of difference explores the question of difference in translation and offers an extended critique of the advocacy of foreignizing translation as a practice that does not minimize the alterity of the foreign text and could therefore serve as an antidote to

ethnocentrism and cultural insularity shamma examines the reception of arabic literature especially the arabian nights in nineteenth century england and offers a detailed analysis of the period s major translations from arabic by edward lane richard burton and wilfred blunt he demonstrates that the long complicated history of interaction often confrontation between europe and the arab world where mis representations of the other were intricately embroiled with political struggles provides a critical position from which to examine the crucial role of context above and beyond the textual elements of the translation in shaping the political effects of translation examining translation techniques and decisions in the context of the translators own goals as well as the conditions that surrounded the reception of their work the study shows how each translator manipulated his original in line with political positions that ranged from implicit acquiescence to steadfast resistance to colonialism in a carefully elaborated critique of totalizing positions the author argues that the foreignizing domesticating model is too limited to describe the social and political function of translation and calls for a more complex understanding of the sociopolitical dimensions of translation strategies

Getting It Right... Or Why the World Is So Monumentally Screwed 2005-09 the world is plagued by many conflicts yet people have no real idea just how far back the root causes go there are also a number of beliefs that fuel many of these conflicts that also have their origins in the past this book explains why these conflicts have occurred focusing on the ancient and medieval historical causes including how many beliefs came to be developed into their modern counterparts it also seeks to point out just how idiotic many of these issues actually are apart from looking at the historical antecedents to these conflicts the book also develops a theme that people's understanding of the past has been manipulated and distorted by other peoples and groups with specific agendas why for example is there such antipathy between the modern west and islam how has the history of the english monarchy been distorted to support the agendas of various kings where did democracy come from and why are its flaws never acknowledged this book attempts to answer these questions
