Cognitive Load Theory 1995

cognitive load theory clt is one of the most important theories in educational psychology a highly effective guide for the design of multimedia and other learning materials this edited volume brings together the most prolific researchers from around the world who study various aspects of cognitive load to discuss its current theoretical as well as practical issues the book is divided into three parts the first part describes the theoretical foundations and assumptions of clt the second discusses the empirical findings about the application of clt to the design of learning environments and the third part concludes the book with discussions and suggestions for new directions for future research it aims to become the standard handbook in clt for researchers and graduate students in psychology education and educational technology

West's Essentials of Microsoft Excel 5.0 2020-07-01

movies and moral dilemma discussions a practical guide to cinema based character development explores the values attitudes and beliefs depicted on film since the beginning of the film industry movie makers have depicted morals and values on the silver screen teachers will find the book to be a valuable guide for infusing character education and film into the classroom the book includes an overview of character education a discussion of film pedagogy and explores utilizing film for educational purposes

Movies and Moral Dilemma Discussions 1994

this volume examines the way participants orient to aspects of their interactions with others as interpersonally sensitive across an array of languages and contemporary institutional settings the individual chapters address interactional episodes where the participants signal that elements of the exchanges they are engaged in are problematic in terms of the vulnerability of their own and or each other's face and the role identities assumed throughout the interactions the volume contributors examine a range of activities in some of these an orientation to interpersonal sensitivity is expected such as citizens encounters with traffic police officers negotiations with a line manager political news interviews or public inquiries other types of activity such as service calls or guided tours involve no such

expectations in and of themselves in some cases the situated vulnerabilities studied here whether expected or not lead to deviation from the expected trajectory of the communicative event with implications for goal achievement the collection of papers draws on diverse analytic perspectives these include interactional discourse analysis interactional linguistics and conversation analysis the diversity of languages and institutional environments examined will be of interest to students and scholars with an interest in face to face interaction and serve to stimulate debate in the field of pragmatics and beyond originally published as special issue of pragmatics and society 7 4 2016
