Paolo Bacigalupi's debut collection demonstrates the power and reach of the science fiction short story. Social criticism, political parable, and environmental advocacy lie at the center of Paolo's work. Each of the stories herein is at once a warning and a celebration of the tragic comedy of the human experience. The eleven stories in *Pump Six* represent the best of Paolo's work, including the Hugo nominee *Yellow Card Man*, the Nebula and Hugo nominated story *The People of Sand and Slag*, and the Sturgeon Award winning story *The Calorie Man*.

Amid the seemingly exponential advancement of technology and the increasingly portentous implications of its continued development and proliferation, many futurists speculate about an imminent historical threshold when the nature of human existence will be forever changed. The singularity in singularities. Joshua Raulerson mounts a wide-ranging study of the singularity as a subject for theory and cultural studies, drawing science fiction texts into a complex dialogue with digital culture, transhumanist movements, political and economic theory, consumer gadgetry, gaming, and related areas of our high-tech postmodernity. By doing so, he shows how the singularity greatly shapes many of our contemporary anxieties and aspirations.
