an unflinching look at the truth behind the media's lies about autism autism now affects 2 percent of us children a once rare disorder is now so common that everyone knows someone with an affected child yet neither mainstream doctors nor government officials can tell the american public what is behind the staggering rise in diagnoses the big autism cover up explores how news outlets downplay the impact of autism while backing the official denial of any link between the disorder and vaccines despite never honestly and thoroughly investigating the link mainstream news sources continue to challenge those who question the safety of vaccines and the mounting evidence that an unchecked unsafe vaccination schedule is behind the exponential increase in autism anne dachel has spent the last ten years monitoring how the press covers autism she's seen the media promote the unrelenting message from health officials that autism hasn't really increased but rather that it is simply a matter of better diagnosing of a disorder that's always been around meanwhile autism remains a perpetual mystery and scientists continue to guess at the genetic and environmental triggers officially there is no known cause or cure for autism there's nothing a new mother can do to prevent a baby that was born healthy and is developing normally from regressing into autism by the age of two despite this officials rarely express concern and adamantly refuse to call autism a crisis the big autism cover up exposes this controversy in searing detail

child sexual abuse by clergy within the roman catholic church has emerged as a social and political discourse over the last three decades

the analysis here specifically focuses on the establishment conduct and outcomes of the extensive public inquiries of australia although inquiries in other jurisdictions are also discussed unlike criminal or civil processes although they may be inquisitory in nature public inquiries emerge from a specifically political context and are a tool of governance embedded in a larger context of governmentality understanding the broader political and cultural contexts of public inquiries is important then in understanding their value and effectiveness as justice processes especially for victims of csa by clergy what is interesting about public inquiry is that it situates victims of csa by clergy outside of criminal and civil justice processes and recognises a different politicised relationship between victims as citizens the state and catholic institutions where abuse has occurred at the cutting edge of disciplinary and methodological understandings of the interconnections between the church state and families his book explores the dynamics of the emergence and politicisation of victims of csa by clergy their expressions of resistance and the legitimisation of their voice in public and political spheres

this account of six families whose children were wrongly seized by child protection services vividly illustrates the constitutional balancing act where medicine family interests and child safety can clash they took the kids last night shows a rarely exposed side of america s contemporary struggle to address child abuse telling the stories of loving families who were almost destroyed by false allegations readily accepted by caseworkers doctors the media and too often the courts each of the six wrongly accused families profiled in this book faced an epic and life changing battle when child protection caseworkers came to their homes to take their kids in each case a child had an injury whose cause was unknown it could have been due to an accident a medical condition or abuse each family ultimately exonerated itself and restored its family life but still bears scars from the experience that will never disappear the book tells why and

how the child protection system failed these families it also examines the larger flaws in our country's child protection safety net that is supposed to sort out the innocent from the guilty in order to protect children

books are like people each one has its own story my book is a story about teenagers with an addiction for drugs and the adverse effects these addictions have on their parents my hope is that this book will present a picture of the many changes that can present themselves in the lives of young people and parents in their battle with mind altering drugs many parents unfortunately are lost in the complexities of our everyday busy lives and their minds are clouded to the problems that are developing before them many of us are either oblivious to the problem of drugs or are too afraid to admit to ourselves that we do not know what to do if it happens in our families parents are sadly convinced that drug addiction can never happen to their children my wife jane and i had to face that sudden realization that drugs were destroying the life of our son i believe that my book when read in its entirety will give you the guidance and insight to help all parents and their children to fight drug addiction and to render proper guidance to those already in the grip of mind altering drugs this book will help to illuminate those hidden changes that drugs can bring into the lives of our children and teenagers and with it the effects it will have on those around them i hope and pray that the sharing of this valuable information along with my own experiences will be a positive force in the thinking of our teenagers and their loving parents my fellow parents it is of the utmost importance that no matter what happens and how tough it may get remember there is no other way but up wherever you are and whatever the problem don't ever stop the fight against drug addiction i am aware that in the hard nosed world we live in there are a multitude of self help books and numerous concepts and scientific theories on how to successfully face your problems and bring about changes in your life but i have written my book for this reason that parents can be hopeful in a time of adversity suffering from a family drug addiction problem let faith and understanding change your life around as parents we often read about drugs and the effects they have upon our children invariably our many conversations will drift to the topic of drug addiction and whether our children are in fact using drugs and what we can do about it i remember sitting with a group of parents discussing drugs although we all agreed that the rapid introduction of mind altering substances was a critical problem to our children not everyone was in agreement what we should and could do about this problem if it affects our family some parents told us our family is very content since all our children are young this problem doesn't pertain to us at this time some parents sat back and told me that their teenage children have never taken drugs they never had to discuss drugs with their children because they knew they would never touch them a third group of parents were honest enough to admit that their teenage son was a drug addict for years and they didn't know it and when they found out about it they didn't know what to do about it parents do these statements sound familiar perhaps something you have heard before but shrugged it off as something you would never have to worry about i realize that this is a sad scenario but very true too many parents are not taking the time to talk to their children and establish a drug free family when they are young and vulnerable the result has been too many young people becoming drug addicts some of them could have been prevented or helped at a young age that initial help must come from us as their parents we must have a constant sense of awareness of this problem facing our children today remember parents we cannot change the nature of the drug addict or his addiction but we can help

nothing is beyond belief imagination is the key to creating a new reality whatever you can imagine you can implement whatever you believe to be actually creates the world you see life doesn t just happen to you it responds to you and the thoughts that you are creating on a continuing basis although thoughts are not tangible they are programmable and powerful thoughts can transform the abstract into the absolute this book is about creative visualization or wishcraft which is a way of thinking that can change your life the principles proposed in this book can propel you from poverty to prosperity and jumpstart your joy as you learn how to transform your thoughts into reality the process starts with a dream a desire or even just a wish wishes come in all sizes one can wish small or one can wish big or tall one can even choose not to wish at all but wishing is really the key to creating a new reality everything that you can conceive of already exists or you couldn t even conceive of it creative visualization simply makes the invisible visible your beliefs are the key to making the invisible materialize predicting the future actually becomes possible once you realize that you can create your own future by propelling your dreams into reality the world can be yours to have and to hold once you take control of your own destiny that doesn t mean that you can control the events that will happen in your life but you can control how you envision those events those visualizations can

either empower you to excel or cripple you in crisis if you want your life to change try doing something strange if you want your life to be different do different think different sometimes all that you need to change is your mind and your beliefs stop setting limits on your life become part of the cycle of life which is to dream desire create and inspire
