of transcultural modernity the self consciousness of working  
on the threshold always testing the limits of boundaries and  
tempted to go beyond them to develop the concept of dandyism  
the quintessence of transcultural modernity the neo sensation

of a simple black dress and pearls but to consider gabrielle coco chanel 1883 1971 as simply a fashion designer fails to capture her social and cultural significance as linda simon reveals in this biography chanel was an iconoclastic entrepreneur who rebelled against and manipulated gender expectations of her time with her menswear inspired designs her loose jersey sweaters belted jauntily at the waist and her svelte unadorned gowns chanel changed women's silhouettes and she became known as a champion of women's freedom chanel not only changed the shape of women's clothing but the narrative of women's lives in the early twentieth century from her very first hat shop until her death chanel sold more than fashion she sold a myth that became as attractive for many women as her coveted outfits simon here teases apart that myth to explore its contradictions chanel was a self proclaimed recluse who emerged as one of the most spectacular personalities of her time she was a brilliant businesswoman who signed away ninety percent of her company and she was a genius who claimed she was nothing more than an artisan in this insightful book simon examines the world both reflected and shaped by chanel setting her life and work within the context of women's history in france and america from the roaring twenties to the profound social changes of the 1960s drawing upon rich archival sources simon's lively book is a clear eyed look at a woman whose influence and legend transcend the world of fashion
