A Boy Should Know How to Tie a Tie

2016-09-20

Life lessons and hard earned advice that every boy needs to become a man and every man needs to become a respected citizen. Antwone Fisher always admired his foster father's crisp sartorial style. It wasn't until Fisher was a navy recruit that he realized this smartly dressed man had never taken the time to teach him how to be well groomed to reflect on the outside. The man he was becoming on the inside. A boy ought to know how to tie a tie. He thought angrily as he struggled to master the navy's required half windsor knot filled with inspiring stories, wisdom and practical know how. A boy should know how to tie a tie teaches basics of personal style and hygiene why cleaning, trimming and polishing are essential daily habits, key components of self improvement, how to develop a routine for success and organize your personal space, the importance of identity, why reinventing oneself is a necessary part of growing up with additional information about healthy eating, making smart financial decisions and finding role models. Antwone Fisher offers a book filled with accessible life lessons.

Finding Fish

A New York Times bestseller, Finding Fish is the remarkable story of an African American boy abandoned in an abusive foster home in Cleveland who rises to liberation, manhood and extraordinary success in Hollywood. Born in prison to a single mother after his father was shot and killed, Antwone Fisher soon became a ward of Cleveland's foster care system. By the time he was five years old, he had been transferred to several different families. Eventually, he came to live with the Picketts, an older couple with grown children of their own. During his stay with the Picketts, which lasted until he was 17 years old, Antwone suffered near constant verbal and physical abuse at the hands of Z.Z. Pickett and sexual abuse from a neighbour. The damage to his self-esteem was tremendous, yet Antwone managed to resist the gang-like behaviour and drug use that so many of his friends were engaged in. Finally, he fled and before long he

was living on the streets homeless again rescuing himself he enlisted in the navy where he created a family for himself and with the help of a navy psychologist worked through his past after he left the navy while working as a security guard at sony pictures in hollywood he told his story to one of the executives there who encouraged him to write his life as a screenplay

the triple crown of oscars awarded to denzel washington halle berry and sidney poitier on a single evening in 2002 seemed to mark a turning point for african americans in cinema certainly it was hyped as such by the media eager to overlook the nuances of this sudden embrace in this new study author david leonard uses this event as a jumping off point from which to discuss the current state of african american cinema and the various genres that currently compose it looking at such recent films as love and basketball antwone fisher training day and the two barbershop films all of which were directed by black artists and most of which starred and were written by blacks as well leonard examines the issues of representation and opportunity in contemporary cinema in many cases these films which walk a line between confronting racial stereotypes and trafficking in them made a great deal of money while hardly playing to white audiences at all by examining the ways in which they address the american dream racial progress racial difference blackness whiteness class capitalism and a host of other issues leonard shows that while certainly there are differences between the grotesque images of years past and those that define today's era the consistency of images across genre and time reflects the lasting power of racism as well as the black community's response to it

Blackness Is Burning

2016-10-03

blackness is burning is one of the first books to examine the ways race and psychological rhetoric collided in the public and popular culture of the civil rights era in analyzing a range of

media forms including sidney poitier s popular films black mother and daughter family melodramas bill cosby s comedy routine and cartoon fat albert pulpy black pimp narratives and several aspects of post civil rights black american culture treaandrea m russworm identifies and problematizes the many ways in which psychoanalytic culture has functioned as a governing racial ideology that is built around a flawed understanding of trying to recognize the racial other as human the main argument of blackness is burning is that humanizing or trying to represent in narrative and popular culture that blacklivesmatter has long been barely attainable and impossible to sustain cultural agenda but blackness is burning makes two additional interdisciplinary interventions the book makes a historical and temporal intervention because russworm is committed to showing the relationship between civil rights discourses on theories of recognition and how we continue to represent and talk about race today the book also makes a formal intervention since the chapter length case studies take seemingly banal popular forms seriously she argues that the popular forms and disreputable works are integral parts of our shared cultural knowledge blackness is burning s interdisciplinary reach is what makes it a vital component to nearly any scholar s library particularly those with an interest in african american popular culture film and media studies or psychoanalytic theory
