Foreign Mining Investment Law *2016-06-28*

this work analyzes and compares the legal framework for foreign investments in the mining sector in australia south africa and colombia the admission of foreign investments corporate structure requirements ownership of minerals and mineral rights mining licenses land access performance requirements distribution of profits and the tax regime repatriation of profits national and international dispute resolution mechanisms and the question of the social license to operate slo corporate social responsibility csr policies are discussed in detail the work concludes with an outlook on the future regulation of foreign mining investments and finally suggests the development of an international mining investment law

Bulletin *1950*

the light metals series is widely recognized as the definitive source of information on new developments in aluminum production technology this new volume presents proceedings from 2013 s light metal symposia covering the latest research and technologies on such areas as alumina and bauxite aluminum reduction technology electrode technology for aluminum production cast shop for aluminum production aluminum processing aluminum alloys and cost affordable titanium iv it also includes papers from a keynote presentation session discussing impurities in the aluminum supply chain are also included

Transactions of the Institution of Mining & Metallurgy *1947*

in 1996 the ams awarded goro shimura the steele prize for lifetime achievement to goro shimura for his important and extensive work on arithmetical geometry and automorphic forms concepts introduced by him were often seminal and fertile ground for new developments as witnessed by the many notations in number theory that carry his name and that have long been familiar to workers in the field 103 of shimura s most important papers are collected in four volumes volume iii contains his mathematical papers from 1978 to 1988 and some notes to the articles

Light Metals 2013 *2013-02-21*

this volume covering metals and minerals contains chapters on approximately 90 commodities in addition this volume has chapters on mining and quarrying trends and on statistical surveying methods used by minerals information plus a statistical summary

Collected Papers III *2002-10-31*

the light metals symposia are a key part of the tms annual meeting exhibition presenting the most recent developments discoveries and practices in primary aluminum science and technology publishing the proceedings from these important symposia the light metals volume has become the definitive reference in the field of aluminum production and related light metal technologies light metals 2011 offers a mix of the latest scientific research findings and applied technology covering alumina and bauxite aluminum reduction technology aluminum rolling cast shop for aluminum production electrode technology and furnace efficiency

Minerals Yearbook 2016-11-15

this volume is a record of a conference which was the fourth in a series held at nwei in wrexham it brought together scientists with interests in the broadly based subject of ion exchange with the aim to cover aspects of its application as well as advances in the theory of ion exchange

Light Metals 2011 *2016-12-23*

this is the proceedings of the 9th conference in this series in addition to papers presented at the conference proper it contains some papers delivered at peter g bergmann s 75th birthday meeting capri 24 sept 1990 among the subjects covered are cosmology and astrophysics both theoretical and experimental

Progress in Ion Exchange 1997-02-01

the shift to mass participation in higher education is a welcome international trend in australia the number of young adults attempting a degree course at university has increased by close to twenty five percent in less than a decade campuses are becoming more culturally and linguistically diverse more university students are coming from poorer families and disadvantaged educational backgrounds the authors of strong starts supported transitions and student success celebrate the diversity of new university learning communities while recognising the challenges faced by many commencing students this book presents research findings strategic thinking and innovative approaches to student transitions and retention at one of australia s newer institutions designated the university of opportunity drawing extensively on international scholarship and the work of retention and transition experts in north america the united kingdom australia and new zealand the book provides several theoretically informed case studies as well as more general discussions and practical advice to academics and professional staff involved in the first year in higher education and especially those practitioners working to enhance the student experience

General Relativity And Gravitational Physics - Proceedings Of The 9th Italian Conference 1991-08-28

the multiple crises of 2020 21 have presented both challenges and opportunities for change in four year residential colleges and universities evidence indicates that the historic structure of administrative and student services is increasingly mismatched to the needs of a diverse and stressed student body born in a digital age inspired by his leadership in a university wide initiative that focused on how students interactions with both academic and professional staff affect their success and well being scott a bass presents fresh insights on the inner workings of traditional nonprofit four year degree residential institutions the book describes the influences of history tradition and internal and external pressures on the american university highlighting its evolution to its staid and fragmented structure it distills voices of students faculty and staff and it explores how successful organizations outside of higher education deliver services with potential applicability for the academy s ability to meet students where they are

Strong Starts, Supported Transitions and Student Success *2014-03-17*

across the world ecosystems are for sale green grabbing the appropriation of land and resources for environmental ends is an emerging process of deep and growing significance a vigorous debate on land grabbing already highlights instances where green credentials are called upon to justify appropriations of land for food or fuel yet in other cases environmental green agendas are the core drivers and goals of grabs green grabs may be driven by biodiversity conservation biocarbon sequestration biofuels ecosystem services or ecotourism for example in some cases these agendas involve the wholesale alienation of land and in others the restructuring of rules and authority in the access use and management of resources that may have profoundly alienating effects green grabbing builds on well known histories of colonial and neo colonial resource alienation in the name of the environment yet it involves novel forms of valuation commodification and markets for pieces and aspects of nature and an extraordinary new range of actors and alliances this book draws together seventeen original cases from african asian and latin american settings to ask to what extent and in what ways do green grabs constitute new forms of appropriation of nature what political and discursive dynamics underpin green grabs how and when do appropriations on the ground emerge out of circulations of green capital what are the implications for ecologies landscapes and livelihoods who is gaining and who is losing how are agrarian social relations rights and authority being restructured and in whose interests this book was published as a special issue of the journal of peasant studies

Administratively Adrift *2022-06-09*

published annually since 1985 the handbook series provides a compendium of thorough and integrative literature reviews on a diverse array of topics of interest to the higher education scholarly and policy communities each chapter provides a comprehensive review of research findings on a selected topic critiques the research literature in terms of its conceptual and methodological rigor and sets forth an agenda for future research intended to advance knowledge on the chosen topic the handbook focuses on twelve general areas that encompass the salient dimensions of scholarly and policy inquiries undertaken in the international higher education community the series is fortunate to have attracted annual contributions from distinguished scholars throughout the world

Abstracts of Contributed Papers 1989

this monograph presents the state of art of the geologic knowledge about the spanish coast obtained through scientific research in the last 30 years from a general point of view coasts are the most quickly changing systems of the earth this is critical since many human resources such as the main part of economic and social activities are located in the coastal areas especially in the case of spain these coasts include cities wide industrial areas including harbor complexes important ecologic systems and our main economic resource tourism understanding the dynamic functioning of each element of this coast is vital for correct future coastal management so as to solve problems derived from bad plans developed in the last decades of the twentieth century this is a valuable text for advanced graduate students and coastal researchers which connects the specific dynamic functioning of the main spanish coastal environments and their relationships with human activities

Green Grabbing: A New Appropriation of Nature 2014-10-29

a corporate campaign is an organized assault on the reputation of a company that has offended some interest group although corporate campaigns often involve political economic and legal tactics they are centered around the media where protagonists attempt to redefine the image and undermine the reputation of the target company it is a strategy most frequently employed by unions but is also employed by special interests such as environmental or human rights groups sometimes it is even employed by one corporation against another it is a rapidly growing phenomenon that is still unknown to the general public to most academics and journalists and is rarely understood by the corporations that find themselves on the firing line the death of a thousand cuts argues and demonstrates that corporate campaigns are a distinctive phenomenon whose manifestations are today ubiquitous in both the marketplace and the media this volume examines in considerable detail the history strategy tactics effects consequences and likely future directions of the corporate campaign and of its nonlabor based cousin the anticorporate campaign the book is based on ample sources and methods among them an extensive review and analysis of media coverage news releases previous scholarship union publications campaign materials interviews and conversations with individuals who have experienced corporate campaigns public presentations by labor leaders and others correspondence internet postings case law

summaries documents videotapes and other materials through original data and interpretation this book adds context and integration to these materials thus giving them new meaning key features of this outstanding new book include a thorough and clear explanation of what a corporate campaign is and how it differs from other more mundane public relations campaigns a detailed examination of strategies and tactics that includes their historical development some of the more high profile target companies in recent years include coca cola microsoft caterpillar campbell s soup federal express general dynamics home depot international paper k mart nike texaco walmart starbucks and ups hundreds of examples that help explain such contemporary events as the anti sweatshop movement on college campuses the living wage movement and the protests against the world trade organization international monetary fund and world bank a lengthy appendix contains abbreviated descriptions of nearly 200 corporate campaigns waged by labor unions and various advocacy groups since the idea of the corporate campaign was first developed in the 1960 s

Resources in Education 1998

based on his dissertation research the retention of first year black male students at predominately white private and public universities and colleges provides evidence that the retention of first year black male students at predominately white private or public universities and colleges can be achieved using the experiences of six participants at a predominately white private university in the washington d c area the book encourages black male high school graduates who want to attend predominately white private or public universities or colleges to use those participants experiences specifically the key factors that contributed to their academic success in obtaining their college degrees educated black men tend to improve their communities provide financially for their families enjoy higher self esteem and become valuable assets to their employers perhaps even becoming business owners today african american enrollment in higher education is at an all time high but there is still a 20 point gap in graduation as compared to whites at 63 this gap has enormous economic and societal implications without education there is no hope for our people and without hope our future is lost journal of blacks in higher education 2009 this treatise not only offers inspiration and practical advice for black men seeking higher education it provides valuable suggestions for high school counselors college administrators and faculty who support this worthy goal

Higher Education: Handbook of Theory and Research 2011-03-24

a reference book in this area of eu competition law and a must have companion for academics enforcers and practitioners alike as well as eu and national judges judge nils wahl court of justice of the european union this seminal text offers an authoritative and integrated treatment of the legal and economic principles that underpin the application of article 102 tfeu to the behaviour of dominant firms traditional concerns of monopoly behaviour such as predatory pricing refusals to deal excessive pricing tying and bundling discount practices and unlawful discrimination are treated in detail through a review of the applicable economic principles the case law and decisional practice and more recent economic and legal writings in addition the major constituent elements of article 102 tfeu such as market definition dominance effect on trade and applicable remedies are considered at length the third edition involves a net addition of over 250 pages with a substantial new chapter on abuses in digital platforms an extensively revised chapter on standards and virtually all chapters incorporating substantial revisions reflecting key cases such as intel meo google android google shopping adsense and qualcomm

The Spanish Coastal Systems 2018-09-03

astronomy and astrophysics abstracts appearing twice a year has become one of the fundamental publications in the fields of astronomy astrophysics and neighbouring sciences it is the most important english language abstracting journal in the mentioned branches the abstracts are classified under more than a hundred subject categories thus permitting a quick survey of the whole extended material the aaa is a valuable and important publication for all students and scientists working in the fields of astronomy and related sciences as such it represents a necessary ingredient of any astronomical library all over the world

The Death of A Thousand Cuts *2000-11-01*

one of a four book collection spotlighting classic articles landmark research findings and reviews in aluminum reduction technology highlighting some of the most important findings and insights reported over the past five decades this volume features many of the best original research papers and reviews on aluminum reduction technology published from 1963 to 2011 papers have been organized into seven themes 1 fundamentals 2 modeling 3 design 4 operations 5 control 6 environmental 7 alternative processes the first six themes deal with conventional hall hérault electrolytic reduction technology whereas the last theme features papers dedicated to nonconventional processes each section begins with a brief introduction and ends with a list of recommended articles for further reading enabling researchers to explore each subject in greater depth the papers for this volume were selected from among some 1 500 light metals articles selection was based on a rigorous review process among the papers readers will find breakthroughs in science as well as papers that have had a major impact on technology in addition there are expert reviews summarizing our understanding of key topics at the time of publication from basic research to advanced applications the articles published in this volume collectively represent a complete overview of aluminum reduction technology it will enable students scientists and engineers to trace the history of aluminum reduction technology and bring themselves up to date with the current state of the technology

The Retention of First Year Black Male Students at Predominately White Private and Public Universities and Colleges *2015-09-14*

the control of greenhouse gas emissions continues to be a major global problem it is inter disciplinary both in substance and approach and covers technical political and economic issues involving governments industry and the scientific community these proceedings contain 220 papers presented at the 5th international conference on greenhouse gas control technologies ghgt 5 held in august 2000 at cairns queensland australia the papers cover the capture of carbon dioxide geological storage of carbon dioxide ocean storage of carbon dioxide storage of carbon dioxide with enhanced hydrocarbon recovery utilisation of carbon dioxide other greenhouse gases fuel

cells alternative energy carriers energy efficiency life cycle assessments and energy modelling economics international and national policy trading and accounting policy social and community issues and reducing emission from industry and power generation

Law and Economics of Article 102 TFEU *2020-09-03*

businesses continue to design and implement a variety of information systems that facilitate the creation aggregation and provision of product related information in order to increase the role that quality information is playing in consumers decision making processes consumer information systems and relationship management design implementation and use highlights empirical research theoretical frameworks and relevant models on the understanding and implementation of consumer information systems by covering consumer perceptions of practicality and ease of use this book is essential for practitioners in business environments and strategic management meeting consumer needs through the use of digital and based technologies as well as recent empirical research findings and design and implementation of innovative information systems this book is part of the advances in marketing customer relationship management and e services series collection

Minerals Yearbook 2001

this book brings together prominent scholars in the fields of international cultural heritage law and heritage studies to scrutinise the various branches of international law and governance dealing with heritage destruction from human rights perspectives both in times of armed conflict as well as in peace importantly it also examines cases of heritage destruction that may not be intentional but rather the consequence of large scale infrastructural development or resource extraction chapters deal with high profile cases from europe north africa the middle east latin america and the caribbean with a substantial afterword on heritage destruction in ukraine
