World War II Sea War, Volume 19 2021-12-29 in 1935 the usaac wanted to build a potential intercontinental bomber a guardian of the hemisphere and granted donald douglas a contract to build the world s largest bomber the groundwork for the intercontinental bomber had been laid in the previous two decades by the courageous military and civilian pilots who risked their lives to set new distance and endurance records after world war i the future axis and allied nations built larger aircraft and finally during world war ii germany and japan became intent on developing intercontinental bomber to retaliate against america while the xb 19 never flew as an intercontinental bomber or even as a combat bomber its contributions as a flying

laboratory significantly influenced the development of the consolidated b 36 peacemaker the world's first true intercontinental bomber since the xb 19 project was top secret and there was only one example built there is little information remaining for researchers over the years bill wolf has collected the largest quantity of xb 19 material and a number of photographs including a copy of the original army air force acceptance of the aircraft first hand narratives of its first flight and other usaac and douglas company documents this book provides a superbly illustrated history of the xb 19 intercontinental bomber and the text is supported by previously unpublished photographs

In the Shadow of the Great War 2019-10-07 excerpt from history of the seventy eighth division in the world war 1917 18 19 the real spirit of the american expeditionary forces in france which enabled such splendid decisive accomplishment was that of all for one one for all this was well exemplified in the lightning 78th division from its able commander major general james h mcrae right down to the last man in the fighting ranks team work and co operation in the common cause were ever their watchwords the finely balanced brigades regiments battalions and companies youthfully enthusiastic confident and determined were always quick to help the troubled neighbor on the right or left of their line never whining no matter how heavy or severe their task promptly and cheerfully did they enter it with no thought of self or possible heralding of fame many very many indeed were the unusually brave heroic deeds performed by men and officers alike hundreds of which will forever remain untold sealed as they are upon the lips of death for frequently all observers perished in the exploits it would require volumes to fully set forth the intimate details of the many known immortal deeds of individuals and combat units of the 78th division in its comparatively short but thoroughly strenuous fighting career that must be left to another time and a pen truly capable of doing them proper honor the purpose of this book is to set forth in a fairly comprehensive manner the birth development activities and achievements of a representative american combat division composed of more than 25 000 fine upstanding virile americans who dropped the plow the tool kit and the pen to become crusaders all willing to shed their life's blood as many did for a great and noble cause thinking not of citations or glittering decorations thinking only of doing their bit every possible care has been taken to insure accuracy and completeness in this permanent record of the divisions activities the actual battle maps original orders and messages have been freely consulted and carefully checked numerous photographs of the battle fronts maps and orders have been reproduced with other illustrations that will enable every man who served with the division to have a thorough comprehension of the whys and wherefors of the strict discipline seemingly needless haste long forced marches trying orders gruelling tasks and other unpleasant experiences of war days which may have grated then but that now with the lapse of time and a more complete and mature understanding of the great american operations stand out clearly as part of the price necessary to win battles about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
