Neurobiology of Cocaine Addiction 2008-05

cocaine produces its psychoactive addictive effects primarily by acting on the brain's limbic system a set of interconnected regions that regulate pleasure motivation an initial short term effect a buildup of the neurochemical dopamine gives rise to euphoria a desire to take the drug again researchers are seeking to understand how cocaine's many longer term effects produce addiction's persistent cravings risk of relapse this paper focuses on the buildup of the genetic transcription factor deltafosb in the limbic system which correlate with addiction like behaviors in mice may precipitate very long lasting changes to nerve cell structure this is one of the first steps toward an understanding of the transition from cocaine abuse to addiction

Outpatient Psychiatric Clinics 1964

examines the career of sociologist alfred r lindesmith who argued against drug prohibitions from the 1930s onward warning of the threat to democracy and advocating more humane drug control laws

Confronting the Drug Control Establishment 2000-01-01

the worldwide burden of alcoholism on affected individuals their families and society is enormous people with alcohol use disorders tend to miss work get into problems with the law have financial difficulties and alienate family and friends alcoholism also contributes to health problems such as heart disease stroke liver disease brain damage pancreatitis and cancer as well as societal problems such as suicide domestic violence and accidents some medications help some patients with alcohol addiction but no drug treatment has been shown to be effective in ending alcohol addiction one drug however has shown promise baclofen which is given for the treatment of multiple sclerosis and other spinal cord diseases has shown promising results in the treatment of alcoholism and alcohol withdrawal symptoms baclofen was developed in the 1960s and marketed and sold for its role in relieving muscle spasms other uses for the drug were not actively pursued and because baclofen is now inexpensive to produce and no longer protected by a patent drug companies have limited interest in performing the rigorous and expensive research required to prove its use for the treatment of alcoholism in this book you hear from internationally regarded doctors who have all prescribed baclofen for years for the treatment of alcohol addiction they report on their experiences and views and discuss the results of studies on the use of baclofen to treat alcoholism whether you are a patient family member or doctor this book will help you understand the history of baclofen's use current research on its use to treat alcohol use disorders and whether it might be a viable option for your life or practice

The End of Alcohol Addiction 2017-06-01

this is the first comprehensive text to address addiction and its multiple effects on and extensions into art literature philosophy and psychology most research into addiction has taken place within the disciplines of medicine criminology politics and social psychology when seen from a broad cultural perspective however addiction emerges directly alongside modernity haunting its various discourses of digression dissent and the transcendence of the commonplace who could even imagine modern writing without the addictive visionary excesses of writers like baudelaire dequincey poe burroughs or artaud or for that matter modern culture without its outsiders its incorrigible addicts its defaced subjects smokers users overeaters alcoholics the insane taking a cultural studies approach to addiction high culture offers

a readable and accessible collection of essays on these socially marginalized practices and discourses so central to modernity

The Bible Text-Book: Or, the Principal Texts Relating to the Persons, Places, and Subjects Occurring in the Holy Scriptures. [A Dictionary.] Arranged with a Variety of Useful Tables. [With Maps.] 1874

for the first time reports on methadone and heroin maintenance treatment with respect to clinical practice research methodological aspects neuroscience and psychotherapy are brought together in this volume they arise from a conference held in november 2001 in basel the swiss approach of a highly structured outpatient treatment using methadone heroin morphine etc to keep patients in treatment is discussed data of follow up after heroin assisted treatment is shown also a critical discussion of the history of treatment modalities and its scientific evaluation is presented further important topics such as brain imaging opioid withdrawal risks of treatment and basic neurochemical research are presented the issue concludes with the narrative experience of a practicing psychotherapist this topical and outstanding overview gives psychiatrists psychologists and psychotherapists neuroscientists physicians as well as decision makers in public health politicians counselors and social workers an excellent insight into stimulating and scientific research

Drug Addiction and Abuse Among Military Veterans, 1971, Joint Hearings Before the Subcommittee on Health and Hospitals of ..., and Subcommittee on Alcoholism and Narcotics of the Committee on Labor and Public Welfare 1971

Sleep Disturbance, Addiction Severity, Mood States and Stages of Change in Opiate-addicted Adults in a Therapeutic Community Residential Treatment Program 2002

when it comes to disagreement we are in perpetual fight or flight mode rather than respond with a posture of compassion and connection we are encouraged to resist others personally and politically either we engage in fruitless arguments with people who refuse to see things our way or we retreat to our echo chambers where everyone agrees with us but the real resistance the kind that helps us grow is learning to love others especially those who disagree with us if you re tired of seeing your real life and online communities in turmoil and you long to be an agent of peace understanding and reconciliation it s time to join a new kind of resistance movement one that pushes us toward personal transformation grounded in scripture and illustrated with compelling true stories this new book from ashley abercrombie will help you gain the confidence to communicate and connect with others stop avoiding necessary tension and resolve your internal and external conflicts when we make love our habitual reaction to the conflicts and divisions in our lives we ll find that we can stay true to our convictions without sacrificing our relationships

High Culture 2012-02-01

presents a portrait of a workaholic and the impact this disorder has on relationships with family and co workers and details techniques for clinicians in the treatment of workaholism

The New Topical Text Book 1897

rebecca lemon illuminates a previously buried conception of addiction as a form of devotion at once laudable difficult and extraordinary that has been concealed by the persistent modern link of addiction to pathology surveying sixteenth century invocations she reveals how early moderns might consider themselves addicted to

study friendship love or god however she also uncovers their understanding of addiction as a form of compulsion that resonates with modern scientific definitions specifically early modern medical tracts legal rulings and religious polemic stressed the dangers of addiction to alcohol in terms of disease compulsion and enslavement yet the relationship between these two understandings of addiction was not simply oppositional for what unites these discourses is a shared emphasis on addiction as the overthrow of the will etymologically addiction is a verbal contract or a pledge and even as sixteenth century audiences actively embraced addiction to god and love writers warned against commitment to improper forms of addiction and the term became increasingly associated with disease and tyranny examining canonical texts including doctor faustus twelfth night henry iv and othello alongside theological medical imaginative and legal writings lemon traces the variety of early modern addictive attachments although contemporary notions of addiction seem to bear little resemblance to its initial meanings lemon argues that the early modern period's understanding of addiction is relevant to our modern conceptions of and debates about the phenomenon

The New Topical Text Book 1897

much has been written about the legendary players and managers of baseball's deadball era 1901-1919 far less attention has been given to the club owners like charles ebbets in 1898 after a 15 year apprenticeship he became president of the brooklyn dodgers taking over a chronic second division team in poor financial condition over the next 25 years he organized four pennant winning clubs and developed one of the most profitable franchises in the game while building two state of the art ballparks in brooklyn ebbets was also an effective steward of the national pastime working tirelessly on innovations that would help all teams not just his own despite his success his personal weaknesses ultimately undermined much of what he had so painstakingly built this first full length biography provides an in depth view of his life and career filling a critical gap in the history of the deadball era and the brooklyn dodgers

Patients in Mental Institutions 1965

A Text-Book: Of the Persons, Places, and Subjects Occuring in the Holy Scriptures 1880

addiction is a national mental and medical health crisis responsible for untold costs to society and severe suffering to innumerable people yet addiction treatment as it is now practiced fails half the time the current treatment approach has changed little in the last 80 years and is a hodgepodge of often shady treatment approaches this book presents a radically different addiction treatment paradigm based on science evidence and best practices and has a success rate approaching 100 when followed closely this model should profoundly upend the current addiction treatment industry nearly every addict lives in a social system a family workplace or community that enables and supports often unconsciously the addict s addiction instead of the current addict focused approach this model extends treatment to the entire support system starting treatment with the concerned family members this model also proposes a single provider the family recovery therapist who manages treatment for the addict and the family from the first phone call through the first year of continuous sobriety this book offers simple recommendations to both addiction treatment providers and family members impacted by this disease it serves as a beacon of hope for families

The Bible Text-book 1880

drawing together a team of international scholars the sage encyclopedia of theory in psychology examines the contemporary landscape of all the key theories and theorists presenting them in the context needed to understand their strengths and weaknesses key features include approximately 300 signed entries fill two volumes entries are followed by cross references and further readings a reader s guide in the front matter groups entries thematically a detailed index and the cross references provide for effective search and browse in the electronic version back matter includes a chronology of theory within the field of psychology a master bibliography and an annotated resource guide to classic books in this field journals associations and their websites the sage encyclopedia of theory in psychology is an exceptional and scholarly source for researching the theory of psychology making it a must have reference for all academic libraries

Psychiatric Index for Interdisciplinary Research 1964

addiction debates explores the tumultuous landscape of addiction research policy and practice covering all the hot topics of the day in a balanced and informative manner comiskey provides international perspectives on each topic stimulating debate and discussion via the different approaches taken globally considering the complexities of debates around legalisation rehabilitation abstinence harm reduction and the current opioid epidemic this sage swift also looks into the health and social concerns related to drug consumption less often debated topics include the ageing population of people who use drugs the rights of the child of parents who use drugs and the pressure these unique factors put on public health and associated services a relevant text for a range of disciplines and people sure to inform challenge and continue the debate

Feminist Therapy with Latina Women 2013-10-18

Broadening the scope of addiction medicine: Integrating co-morbid conditions, polysubstance use, and patient experiences into substance use treatment 2023-12-18

a profound yet practical guide to understanding addiction and recovery from an authority on the subject no social problem today causes greater confusion than addiction whatever form it takes alcohol heroin cocaine nicotine etc it tears apart homes and relationships destroys careers and futures and leaves loved ones asking why couldn't he stop once and for all or get better or control himself despite everything that's been said and written many people remain deeply confounded about these problems the addiction treatment field itself is in a state of civil war because there is no consensus on what addiction is much less what to do about it based on years of hard won experience by a preeminent specialist in addictive behavior thinking simply about addiction explains the core truth of addiction it is not a neurosis a physical malady a behavioral choice or in the narrowest sense a moral failure it is an automatism an involuntary non-stoppable behavior that once triggered leaves the addict powerless it is a human problem and a part of human nature as such it is something that we all experience in four to the point chapters thinking simply about addiction rises above the noise level and provides real world help and new ways of thinking for addicts and those who care for them its insights are so profoundly clear and sensible that many readers will be able to say finally someone gets it

Addiction, Assessment, and Treatment with Adolescents, Adults, and Families 2013-04-15

this book tackles the paradox that is the observation of hidden behaviours concerning the use of substances such as alcohol and other drugs which are prohibited condemned or censored by various instruments of control legal medical moral these behaviours tend to be kept secret from significant others under what conditions could they be revealed to an unknown inquirer the book discusses these conditions and the ways and their limits to ensure the validity and the reliability of the data collected and to analyse and interpret them it serves as an instrument of reflection for researchers and a source of support for decision makers faced with researching and intervening in harmful drug use

Drug Addiction 1972

a major national goal is to improve the health of the populace while advancing our opportunities to pursue happiness simultaneously there are both increasing health costs and increasing demands that more be accomplished with less financial support with the number of deaths attributable to drug abuse especially of tobacco in the us at about 250 000 per year the annual cost of drug addiction is over 150 billion improved treatment methods can both reduce these costs and improve health by preventing the continued exposure of abusers to the toxic effects of alcohol and other drugs this fourth volume of drug and alcohol abuse reviews focuses on the strategies currently thought best for the treatment of drugs of abuse a variety of approaches to drug abuse treatment employ those psychosocial factors that are known to influence drug use in youth and adults although the main emphasis is on the treatment of illicit drug use a major cofactor in damaging the health of drug users is nicotine tobacco addiction whose treatment is also reviewed and the roles of learning and outpatient services are shown to affect treatment significantly thus the problems confronted and solutions used in drug abuse treatment have here been analyzed in concise reviews that deal with the evidence for today's best hypotheses and conclusions some emphasis is also placed on reviewing new compounds used to prevent cocaine and opioid dependence

Love Is the Resistance 2021-08-31

Chained to the Desk (Third Edition) 2014-02-21

we are at the crossroads of world health on the one hand we face the possibility of a world wide pandemic the likes of which has never been seen before we are likewise on the threshold of discovering natural cures for nearly every disease as choosing wisely may mean the difference between life and death this book is designed to help the reader choose alternative options that are seldom if ever in the news jared diamond in his groundbreaking work collapse how societies choose to fail or succeed addresses the fact that only civilizations that recognize the threats against their existence and deal with the threat effectively survive civilizations with their heads in the sand become extinct or are conquered by more vigorous nations the robber barons of the last century were able to create a monopoly for oil and the automobile by ruthlessly and systematically destroying all competition they tore up cable car lines and public transportation so the public would have no other alternative except their oil today the drug monopolies owned by the descendants of these same robber barons are nearly complete in their plot to eradicate all natural low cost remedies for disease prevention and treatment in the state of florida naturopathic physicians were de licensed unless they also had a conventional medical license the powers that be want to create a drug induced society at an enormous financial and emotional cost to the public at large they are even trying to outlaw vitamins via european health treaties and side step the american constitution and the public the ever escalating cost of medical care created by lack of natural alternative options can only lead to the eventual total collapse of the entire medical system it is exceedingly difficult finding the truth about alternative medicine as the system has a vested interest in making profits and keeping the truth from you a few thousand deaths is an acceptable loss if a few billion dollars can be made and it will be a cold day in hell before a drug company puts itself out of business by telling you about a low cost natural cure that their product can manage the guardians of public health know which side their toast is buttered on also the career politicians and beltway bandits at the fda know where the money is and they dont get it from you or providers of natural cures the drug monopolies pay the big bucks there have been no checks and balances corruption has become so pronounced that the us house of representatives is seeking to pass the consumers access to health information act h r 2352 to ensure that accurate health claims are not suppressed consumers would be given truthful and complete information about the curative mitigation treatment and prevention effects of foods and dietary supplements on disease or health related conditions the time to exercise your god given right to the health care of your choice is now lef.org america has the finest emergency health care in the world bar none however that is not the nature of the coming threat american baby boomers will soon be retiring in the tens of millions their health care needs will be staggering and costly however 92 of american health care providers are trained in emergency medicine and only 8 in long term preventative medicine as it takes a minimum of 6 7 years to obtain a medical degree america is unprepared for a crisis that is inevitable

Addiction and Devotion in Early Modern England 2018-02-02

the book is a practical guide to caring for individuals with substance use disorder written for generalists and non addiction specialists this new edition emphasizes compassionate non stigmatizing patient focused care
